Via Mizner, a U.S. Immigration Fund project in Boca Raton, Florida has received I-829 petition approvals resulting in repayment of EB-5 Investment to Investors

JUPITER, FLORIDA, USA, April 4, 2018 /EINPresswire.com/ -- As Phase I of the Via Mizner project in Boca Raton Florida has reached completion, another financial milestone is met as [U.S. Immigration Fund](#) ("USIF") announces that I-829 approvals are now being issued to EB-5 investors by the United States Citizenship and Immigration Services ("USCIS") resulting in investors being repaid their full \$500,000 EB-5 investment in the Project.

Receiving the I-829 petition approval represents the final step of the EB-5 visa process for immigrant investors to become lawful permanent residents of the U.S.. This approval milestone means that the conditional status of their green card is removed. The I-829 petition includes evidence that the immigrant investor successfully met all requirements of the EB-5 Program, specifically that the full \$500,000 investment was made and the required number of jobs were created for the project. The ultimate goal for investors is permanent residency status which allows investors along with their spouse and unmarried children under 21 to live, work, and attend school anywhere in the United States.
