Sumitomo Dainippon Pharma Co Ltd

Coagulation Factor XI Industry Major Outlook

Pharmaceutical and Healthcare latest pipeline guide Coagulation Factor XI - Pipeline Review, H1 2018, provides comprehensive information on the therapeutics under development for Coagulation Factor XI, complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

Coagulation Factor XI (Plasma Thromboplastin Antecedent or F11 or EC 3.4.21.27) pipeline Target constitutes close to 17 molecules. Out of which approximately 16 molecules are developed by companies and remaining by the universities/institutes. The molecules developed by companies in Phase II, Phase I and Preclinical stages are 4, 4 and 8 respectively.

Coagulation Factor XI pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage.

#### Coagulation Factor XI - Competitive Analysis

Key players are making innovative developments in Coagulation Factor XI industry. The same will help in improving the market performance. Heavy investments are made by major players in the R&D sector

#### Scope

The pipeline guide provides a snapshot of the global therapeutic landscape of Coagulation Factor XI.

The pipeline guide reviews pipeline therapeutics for Coagulation Factor XI by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Coagulation Factor XI therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Coagulation Factor XI therapeutics based on mechanism of action

(MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Coagulation Factor XI.
