

# Liver Transplant Rejection - Disease Assessment and Therapeutics Analysis Forecasts to 2024

---

PUNE, INDIA, April 4, 2018 /EINPresswire.com/ -- WiseGuyReports.com with their unique quality of simplifying the market research study, presents a deep diving study report "Liver Transplant Rejection - Pipeline Review, H1 2018"

## Liver Transplant Rejection

### Overview

Liver transplantation is the conventional therapy used in various liver diseases. Liver has the unique ability to regenerate or grow, unlike any other organ in the body. Liver transplant replaces an injured or diseased liver with a healthy one. An entire liver or just a section may be transplanted.

Following a transplant, the immune system may consider the transplanted liver as foreign and may work against it. Patients may hence develop complications and ultimately reject the new organ. Therefore, immunosuppressive drugs are administered simultaneously.

These immunosuppressive drugs prevent the body from either identifying or attacking the foreign organ via various immune responses thus blocking organ rejection and facilitating a successful transplant.

### Major Key Players:

Astellas Pharma Inc

Dompe Farmaceutici SpA

Novartis AG

RedHill Biopharma Ltd

Veloxis Pharmaceuticals A/S

### Liver Transplant Rejection Industry Major Outlook

Pharmaceutical and Healthcare latest pipeline guide Liver Transplant Rejection - Pipeline Review, H1 2018, provides comprehensive information on the therapeutics under development for Liver Transplant Rejection , complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers

the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Liver Transplant Rejection (Immunology) pipeline guide also reviews of key players involved in therapeutic development for Liver Transplant Rejection and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Pre-Registration, Phase III, Phase II, Phase I, Preclinical and Discovery stages are 1, 1, 3, 4, 3 and 1 respectively. Similarly, the Universities portfolio in Phase III, Phase II, Phase I and Preclinical stages comprises 1, 2, 1 and 1 molecules, respectively.

Liver Transplant Rejection pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage.

### Liver Transplant Rejection - Competitive Analysis

Key players are making innovative developments in Liver Transplant Rejection industry. The same will help in improving the market performance. Heavy investments are made by major players in the R&D sector

### Scope

The pipeline guide provides a snapshot of the global therapeutic landscape of Liver Transplant Rejection.

The pipeline guide reviews pipeline therapeutics for Liver Transplant Rejection by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Liver Transplant Rejection therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Liver Transplant Rejection therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Liver Transplant Rejection.
