

# Tarps Now Increases Focus on Hurricane Storm Recovery Materials

*Tarps Now® announces new line of heavy duty tarps designed to help natural disaster recovery*

ST. JOSEPH, MICHIGAN, UNITED STATES, April 4, 2018 /EINPresswire.com/ -- With Puerto Rico's slow recovery from recent hurricane activity, Tarps Now® has become a major supplier for providing tarp cover materials for that area throughout Puerto Rico and the Caribbean islands, as well as Southeastern and Gulf coastal regions of the United States.

When natural disasters strike, homes are destroyed, jobs and lives are lost, and local economies are decimated. Even when limited storm or earthquake damage causes damage to roofing, windows, interior rooms and thresholds, ready access to [heavy duty tarps](#) can quickly provide coverage that enhances the ability to effect lasting repairs while preserving things that have not been destroyed.

A spokesperson for the leading U.S. based tarp supplier, Tarps Now® stated, "We have substantially increased our supplies of heavy duty tarps in anticipation of future hurricanes and other types of natural disasters that are becoming all too common in the Western Hemisphere."

Tarps Now® spokesperson added, "The impact made by Hurricane Maria has been a wake-up call. Prompt access to heavy duty tarps helped to provide temporary shelter when homes were nearly destroyed, and when they were not, these same tarps were used to secure damaged roofing areas, walls and interior rooms as well. They were often used to quickly set up tents that delivered immediate protection from the elements. In addition, heavy duty tarps were often used in the wake of Hurricane Maria to cover areas where there was too much mud to travel through safely."

Tarps Now® offers their heavy-duty products for sale to the public, businesses, state, federal, military and other governmental agencies through their website located at [www.tarpsnow.com](http://www.tarpsnow.com), and also provides tarp material consulting services to such entities throughout the Western Hemisphere.

## About Tarps Now®
