

Endur ID Secures 2nd GSA Contract

Endur ID, of Hampton, NH is pleased to announce that it has secured a GSA Contract

HAMPTON, NH, USA, April 5, 2018 /EINPresswire.com/ -- Endur ID, of Hampton, NH is pleased to announce that it has secured a GSA Contract which will allow the Government Agencies such as the Veterans Administration, DOD, Indian Affairs and others to access the Endur ID's Identification products. Endur ID is a long time supplier to the Veterans Administration, and is used in over 120 VA Medical Centers. We are excited to continue to supply our Identification wristband products to those who have served.

All of [Endur ID wristbands](#) are designed specifically to meet and exceed all current Joint Committee on Accreditation of Healthcare Organizations (JCAHO) recommendations. A bar-coded patient wristband is the foundation upon which all barcode medication systems and patient tracking systems are based.

[Endur ID's wristbands](#) can be easily adapted into most current [patient identification systems](#) without major investment. The only requirement is the ability to format patient information and print to a desktop laser printer. The wristband's material and construction is tough and able to withstand the rigors of a hospital environment, including showers, alcohol wipes, and other agents directly from the printer without further protection.

More information can be obtained from Endur ID. Phone (603) 758-1488, email at info@endurid.com or on the web at <http://endurid.com>
