

# Calif Botanicals Seeks Investor for California Marijuana Opportunity

*Calif Botanicals is currently seeking an investor for its Desert Hot Springs Marijuana Cultivation Project.*

PALM SPRINGS, CALIFORNIA, UNITED STATES, April 7, 2018

/EINPresswire.com/ -- Palm Springs, CA, April 6, 2018 - (Press Release Point) – Calif Botanicals, a California-based company, is currently looking for \$12 million in investment capital to assist in the development of its first marijuana project in California.

Calif Botanicals is in the process of developing 2.13 acres of land it owns in the Coachillin Cultivation Park in Desert Hot Springs with 54,000 square feet of

state-of-the-art greenhouse as well as additional laboratory and processing space. Calif Botanicals aims to produce the very finest in organic, sun-grown craft and heritage marijuana in California.

“We are excited to announce that we are looking for this investment,” said Chip Crandall, Co-founder and Owner of Calif Botanicals. “This is the perfect time to be launching a company such as ours, and we look forward to making a real impact in the industry with our quality–driven product. This is a prime opportunity for an investor looking to enter or expand their investment portfolio in the fast-growing California marijuana market with a unique, perfectly-positioned company.”

Unlike other companies, Calif Botanicals will employ the very latest in cultivation methods combined with exceptional old-school genetics and product throughput, all organically sun grown under the direction of some of the brightest experts in the industry.

## ABOUT Calif Botanicals:

Calif Botanicals truly believes that centuries-old botanicals, specifically cannabis sativa, can have a profound impact in adding pleasure to our lives, improving our health and wellness, and creating a huge business opportunity for the savvy investor. To that end, they will grow the finest organic, “sun-grown” marijuana, and process it under the most stringent conditions to produce an extensive line of premium marijuana products including bud and flower, oil and ancillary products. Their premium marijuana will be grown in one of the most advanced facilities in California in a planned development specifically designed to optimize an earth-first approach to producing marijuana in a strategically located area of the State.
