

# Store Share Access, SSA Completes Integration with Construction Industry Photo Solution Leader CompanyCam

*Roofing CRM Store Share Access, SSA integrates with construction photo-based solution platform CompanyCam.*

BATON ROUGE, LOUISIANA, UNITED STATES, April 11, 2018

/EINPresswire.com/ -- [Store Share Access](#) (SSA), LLC announces its

completion of integrating with photo solution technology Pioneer

CompanyCam. Thanks to this convenient enhancement, SSA members can use

CompanyCam's photo solution directly from within SSA's CRM system for roofers. With this integration, SSA continues to deliver accessible roofing CRM technology that's simple to use and convenient.

“

This is a game changer for us”

*Michael Dier of Watkins Construction and Roofing*

Louisiana-based Store Share Access (SSA) LLC enhances SSA -- its easy-to-use roofing [CRM platform](#) -- with convenience thanks to its integration with CompanyCam. As a leader in photo solutions for the construction industry, CompanyCam offers its members on the SSA platform the ability to access its technology, which includes cloud storage and unlimited photos, right within the SSA platform in each job.

"SSA is proud to partner with a pioneer in the industry like CompanyCam. Now our members can use CompanyCam's services directly from our system," explains SSA owner Chuck Magee.

## Convenient Solutions for Compelling Results

Having the ability to use convenient tools that help improve efficiency is vital for any roofing contractor. With the completion of SSA's CompanyCam photo solution integration, members can now leverage the convenience of using the photo solutions tool within the platform to save money and time. "This is a game changer for us" Says Michael Dier of Watkins Construction and Roofing in Jackson MS.

CompanyCam enables contractors to take unlimited pictures that can be securely stored using cloud-based technology. These images are also time- and location-stamped for convenience. This enables contractors to easily access their projects no matter when or where they are. CompanyCam's photo solution also enables contractors to track the place and time of the pictures regardless of who takes

the photo. This technology complements SSA's robust and simple-to-use CRM platform with images that can support real-time communication and reduction of job-site errors.

While SSA's platform can be used as a sales tool, its ability to facilitate organization and communication from one central location makes it convenient and easy for roofing contractors to use. To gain more insight on SSA's creative and convenient products, please visit the [SSA website](#).

#### About CompanyCam

CompanyCam is a photo-based solution created for contractors, by contractors. Users can take unlimited photos—which are location and time stamped, sent to the cloud, and stored securely. Every photo is organized by project and instantly available to your team, allowing you to see what's going on anytime, anywhere. Photos can be annotated with drawings, arrows, comments, tags, and voice notes and users can create project timelines, photo galleries, reports, and transformation photos through the app. Recently, new augmented reality tools have been added and users can now use virtual measuring and place virtual objects into projects.

#### About Store Share Access

SSA was designed and is sold and supported by roofers who have been in the roofing construction industry for many years. In addition to being simple to use, with no complex software to learn, SSA is accessible and works on any device from anywhere. SSA is affordable, with one low monthly price no matter how many users a company adds. Store Share Access is the roofing industry's best friend in a CRM. Finally, a CRM that works as hard as you do!
