

EIPLATFORM. THE PROJECT OF THE FUTURE MEANS TEAM OF THE FUTURE.

EIPlatform team. Great people who design and develop this great project.

TALLINN, KESKLINNA LINNAOSA,
ESTONIA, April 9, 2018

/EINPresswire.com/ -- [EIPlatform](#) is a large-scale platform based on the blockchain system, which allows directly linking sponsors, partners, gamers, esports fans with significant benefits and convenience for all parties.

One of the goals of EIP is to replace agencies with more personalized and efficient direct marketing, facilitating effective direct interaction between Brands and the audience.

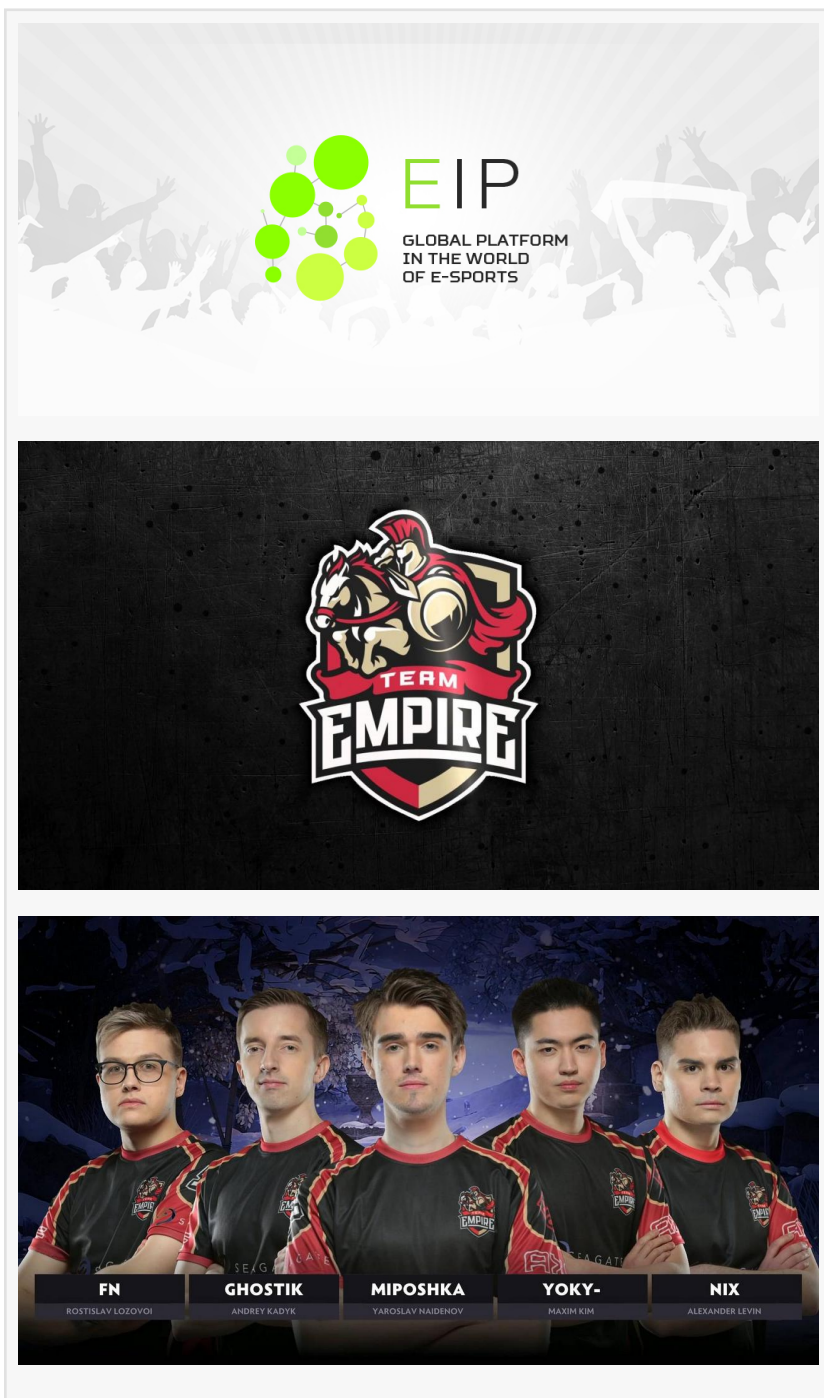

Creating of a single EIP platform equipped with artificial intelligence, with using its own calculation tools will allow the following:

_ Provide new opportunities for sponsors and partners who will get a vision of the effectiveness of their investments as never before.

_ Users (audience) will be able to receive exclusive goods and services from funded companies (exclusive tickets for a tournament from tournament platforms, merchandise from teams and additional opportunities on media platforms), and from sponsors and partners - additional preferential terms for their goods and services.

_ Entering the market of a large number of non-endemic partners, who will be able to take advantage of an additional tool for gaining an audience.

FOUNDERS' EXPERIENCE EIP

Founders gained a first-hand and practical experience in the grocery industry while developing and growing the largest and the most popular teams in the history of Esports. The team is constantly growing and evolving to ensure that it can meet the expectations of the Esports community and create a unique platform that directly connects all participants of the ecosystem - Esports tournament organizers, the streamers and the viewers.
