

PDFpen 10 Adds Watermarks, Headers & Footers, and Enhanced Selections

PDFpenPro 10 Adds Batch OCR

SAN FRANCISCO, CALIFORNIA, UNITED STATES, April 10, 2018 /EINPresswire.com/ -- Smile, the developer of productivity applications for Mac®, iPhone® and iPad®, launches PDFpen and PDFpenPro 10.0, a new major version of its all-purpose PDF editing tool for Mac. Version 10 introduces watermarks, headers & footers, and for Pro users, batch OCR (Optical Character Recognition).

Add text and image watermarks with opacity and rotation controls, as well as custom page range options. Use watermarks to identify draft or confidential in-house documents, assert copyright, or clarify intended distribution.

Apply header and footer text with options for customizing page position, font, and page range.

PDFpenPro 10 offers batch OCR for turning multiple scans into searchable documents all at once.

The new Precision Edit tool in PDFpen and PDFpenPro 10 adds selection options and supports moving, resizing, and deleting line art and text blocks. This new tool maintains or decreases file size when moving, resizing and deleting images.

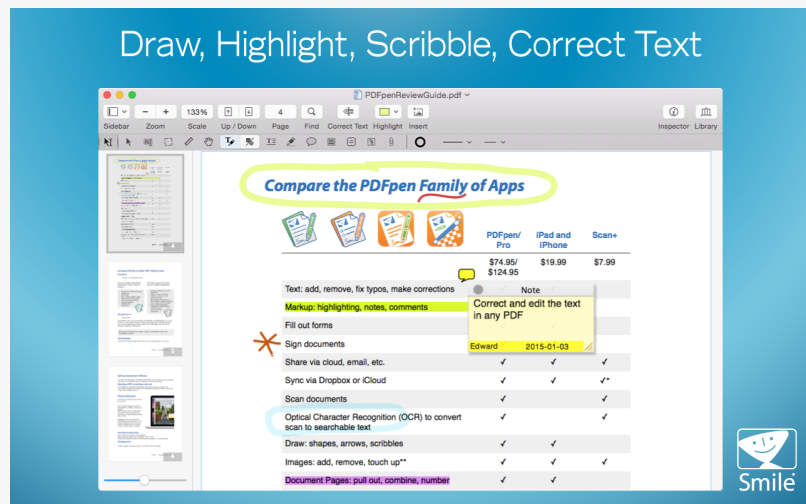

PDFpen 10 includes several additional improvements, including a larger view option for Library items, vibrant drawing colors, and more context menu actions.

"It's always exciting to deliver features your customers have asked for," said Philip Goward, Smile founder. "And with version 10 offering watermarks, headers & footers, and batch OCR just to name a few, we have done just that."

PDFpen and PDFpenPro 10 work with PDFpen for iPad & iPhone version 3, allowing seamless

Easily fill and sign forms

Highlight and scribble notes

editing across devices when used with Dropbox or iCloud.

PDFpen retails for US \$74.95, PDFpenPro for \$124.95. Family Pack licenses, which cover up to five computers in one household, are \$94.95 for PDFpen and \$149.95 for PDFpenPro. Office Pack licenses start at \$224.95 for PDFpen (5 users) and \$349.95 for PDFpenPro (5 users).

Upgrades from earlier single user versions of either application are US \$30, and free to users who purchased on or after January 1, 2018. Upgrades from any previous version of PDFpen to PDFpenPro 10 are \$50. Upgrade pricing for Family Packs and Office Packs is found in our web store:

<https://smle.us/store>. Site licenses also available: PDFpen \$1249.95, PDFpenPro \$1624.95.

PDFpen 10 and PDFpenPro 10 require macOS 10.12 (Sierra) and work great on macOS 10.13 (High Sierra). For macOS 10.11 (El Capitan) and earlier, see our website for compatible PDFpen versions. Demo versions available. Full versions of PDFpen and PDFpenPro are also available for purchase on Apple's Mac App Store.

What's New in PDFpen 10:

- Adds watermarks
- Insert Headers & Footers
- OCR multiple documents in batch (PDFpenPro only)
- New Precision Edit tool selects, moves, resizes and deletes line art and text
- Improves move & resize of images
- Enhances page number styling
- Adds larger Library item view
- Prettier drawing colors
- Adds context menu options
- Various improvements and fixes

Features Specific to PDFpenPro:

- Export to Microsoft® Excel (.xlsx, .xls), Microsoft® PowerPoint (.pptx) and PDF Archive (PDF/A) formats (requires Internet connection for .pptx and PDF/A, must be a licensed user)
- Create cross-platform fillable PDF forms including interactive signature fields and email or web submission buttons
- Create and edit Table of Contents
- Convert websites into PDFs
- OCR multiple documents in batch
- Add and edit document permissions
- Automatic form creation makes existing PDF forms fillable
- Gather submitted form data via backend integration
- Add and delete file attachments and annotations
- Create Portfolio documents, combining related files together

The image shows a screenshot of the PDFpen application interface. At the top, a blue banner reads "Redact Personal Information". Below this, a document titled "filing.pdf" is open, showing a legal document from the "SUPERIOR COURT FOR THE STATE OF MONTANA". The document contains several lines of text, some of which are redacted with black boxes. A "Redact" dialog box is visible in the foreground, showing a "Reduction Style" dropdown set to "Block" and a "Redact" button. The document text includes "Attorneys for plaintiff", "an individual.", "Plaintiff,", "V.", "an individual; and DOES 1 through 20, inclusive, Defendants.", "Case No: [redacted]", "Assigned for All Purposes to: Judge: [redacted] Dept.: C11", "Complaint Filed: February 7, 2013", "NOTICE OF RULING", "Date: March 19, 2013", "Time: 1:30 p.m.", "for an order prohibiting [redacted] from", "and pay for [redacted] rash ointment came", "on for hearing before this court on March 19, 2013, Judge: [redacted]", "Having read the motion, the points and authorities and declarations filed by the parties, and having heard the arguments of counsel, the court orders that [redacted] pay [redacted] \$3 for". The PDFpen logo, a smiley face, is in the bottom right corner.

Redact your personal information

- Correct typos in OCR text layer
- OCR horizontal Chinese, Japanese & Korean

Features:

- Add text, images and signatures to PDFs
- Correct text in original PDF with editable text blocks
- Fill out interactive PDF forms and sign them
- Redact or erase text, including OCR text
- Search and replace, search and redact, and search and highlight text
- Export in Microsoft® Word format, TIFF, JPEG, PNG, and flat PDF
- Scan directly from Image Capture or TWAIN scanners
- Perform OCR (Optical Character Recognition) on scanned documents
- View OCR layer for proofing OCR text from scanned pages, or remove OCR layer
- Edit original images, including adjusting resolution, color depth and contrast, skew, and size of an image or scanned document
