

Restaurant Magic to Preview New Features at Multi-Unit Restaurant Technology Conference

Restaurant Magic Software announced revealing new features of its Data Central® Management Suite at the Multi-Unit Restaurant Technology Conference (MURTEC).

TAMPA, FL, UNITED STATES, April 10, 2018 /EINPresswire.com/ -- Restaurant Magic Software announced today that it will be revealing exciting new features of its Data Central® Management Suite at

the Multi-Unit Restaurant Technology Conference (MURTEC). The Restaurant Magic team will be available to discuss the software's recently released features that include data warehousing, enhanced restaurant analytics, and tablet specific user interfaces. They will also be there to continue building awareness its existing flagship product the Data Central Management Suite which is inclusive of food management, business intelligence, dashboarding and enterprise reporting.

Our team has worked hard to make our software the leading Multi-Unit Back Office Software in the industry”

Drew Peloubet, CEO of Restaurant Magic

MURTEC is attended by over 675 influential decision makers across all major restaurant categories, including technology, marketing, digital, finance and operations. The producer of MURTEC is Hospitality Technology, the leading magazine covering restaurant and hotel technology. This year's show will be held at the Paris Hotel in Las Vegas, NV on April 11-13.

“We are excited to be part of such a well-known event,” said Drew Peloubet, CEO of Restaurant Magic. “Our team has worked hard to make our software the leading Multi-Unit Back Office Software in the industry.”

About Restaurant Magic

Data Central® by Restaurant Magic is a suite of back office applications designed to help restaurant managers achieve peak operational and financial efficiency. Data Central® leverages business intelligence and automation technologies to decrease food costs, manage labor and improve overall customer service. The software integrates information from existing POS, inventory, supply, payroll and accounting systems to provide a comprehensive view of your operations. The Data Central® platform allows for easy system-wide deployment of updates, configurations, recipe changes and other information. Most important of all, the solution is mobile friendly, providing browser level access to all store level functions.

Restaurant Magic was founded over 20 years ago with a single vision of providing restaurant operators better access to their operational data. With this access, operators can make faster
