

eQuine Holdings Increases Minimum Equity Requirement

Minimum Equity Requirement Increased to Five (5) Million USD from One (1) Million USD.

DALLAS, TEXAS, USA, April 12, 2018 /EINPresswire.com/ -- eQuine Holdings has increased the minimum equity requirement to maintain a new Single Family Office (SFO) within eQuine's Multi-Family Office (MFO) from \$1,000,000. USD to \$5,000,000. USD beginning Q2 of 2018.

The previously announced increase will not affect the existing Single Family Offices within eQuine's Multi-Family Office corporate structure. The company had previously planned for the increase to be implemented Q1 of 2018, but extended the deadline to accommodate a number of SFOs that were in the formation process below the new threshold.

About the Company:

eQuine Holdings, LLC is a multi-family office (MFO) located at Southlake, Texas and is responsible for managing the day to day operations of various interests in private and public companies.

The company deploys a strategy that algorithmically detects anomalies created by illegal abusive naked short selling and illegal use of deep in the money calls used to reset RegSHO buy-in requirements, including a multitude of other data points and trades directly against the illegal activities of abusive naked short sellers. eQuine reported record returns in excess of 500% for fiscal year 2016 and has audited returns greater than 100%, six of the last 10 years.
