

Bitcoiin B2G Announces Early Results

With the current value appreciation curve, it appears Bitcoiin B2G is well on its way to assuming its place among the world's major cryptocurrencies.

HONG KONG, CHINA, April 12, 2018 /EINPresswire.com/ -- [Bitcoiin B2G](#) (www.bitcoiin.com) is excited to announce global acceptance of its entrance into the world cryptocurrency market. In active trading, Bitcoiin B2G is currently trading at \$32.34 per unit.

While Bitcoiin B2G was designed as a unit of exchange, the current appreciation in value—which gives every current sign of continuing— helps holders of B2G, and also helps those merchants and service-providers who accept Bitcoiin B2G as a unit of exchange.

With [B2G Wallet](#) (<https://wallet.bitcoiin.com/>), and Thorex.net (<https://www.thorex.net/>), the Bitcoiin ecosystem offers a comprehensive solution, including purchasing B2G tokens, storage wallets, and a fresh new trading platform built to accommodate instant transfers from Bitcoiin B2G to other cryptocurrencies and global fiat currencies.

Interoperability, Flexibility, Speed: Bitcoiin B2G was conceived and designed to offer a seamless web of cryptocurrency sales, wallet storage, and trading. The current iteration of the Bitcoiin B2G ecosystem provides those three, all now in fully-functioning nodes.

With the current value appreciation curve, it appears Bitcoiin B2G is well on its way to assuming its place among the world's major, established cryptocurrencies. Only the market will determine value, but Bitcoiin B2G's organizers envision an expanding universe of functionality, including enhanced bank relationships, card provider services, and an expanding list of merchants and service-providers accepting B2G.

Recent [trade](#) execution results indicate the original predications of real-time transaction processing in the 10-15 second range are proving very realistic. This capability of the Ethereum-based blockchain technology upon which Bitcoiin B2G was built, sets B2G apart from first-generation currencies like the original bitcoin.

Anonymity, Borderless Operation, Security: Based on solid, secure transparent technology, Bitcoiin B2G's robust mining operation, facilitated through Dragon Mining Technology workstation arrays, B2G
