

Complex Regional Pain Syndrome - Pipeline Review, H1 2018

PUNE, INDIA, April 12, 2018 /EINPresswire.com/ -- WiseGuyReports.com with their unique quality of simplifying the market research study, presents a deep diving study report "Complex Regional Pain Syndrome - Pipeline Review, H1 2018"

Complex Regional Pain Syndrome

Overview

Complex regional pain syndrome (CRPS) is a chronic pain condition that most often affects one limb usually after an injury. CRPS is divided into two types: CRPS-I (Individuals without a confirmed nerve injury) and CRPS-II (when there is an associated, confirmed nerve injury).

Symptoms include stiffness in affected joints, changes in nail and hair growth patterns, dystonia and abnormal sweating pattern. Treatment includes bisphosphonates, non-steroidal anti-inflammatory drugs, opioids and local anesthetic creams.

Complex Regional Pain Syndrome Industry Major Outlook

Pharmaceutical and Healthcare latest pipeline guide Complex Regional Pain Syndrome - Pipeline Review, H1 2018, provides comprehensive information on the therapeutics under development for Complex Regional Pain Syndrome, complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Complex Regional Pain Syndrome (Central Nervous System) pipeline guide also reviews of key players involved in therapeutic development for Complex Regional Pain Syndrome and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Phase III,

Phase I and Preclinical stages are 2, 1 and 2 respectively. Similarly, the Universities portfolio in Preclinical stages comprises 2 molecules, respectively.

Complex Regional Pain Syndrome pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage.

Complex Regional Pain Syndrome - Competitive Analysis

Key players are making innovative developments in Complex Regional Pain Syndrome industry. The same will help in improving the market performance. Heavy investments are made by major players in the R&D sector

Scope

The pipeline guide provides a snapshot of the global therapeutic landscape of Complex Regional Pain Syndrome.

The pipeline guide reviews pipeline therapeutics for Complex Regional Pain Syndrome by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Complex Regional Pain Syndrome therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Complex Regional Pain Syndrome therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Complex Regional Pain Syndrome.
