

Port Construction America Market 2018- By Develop Strategies Based on the Latest Regulatory Events

Port Construction America Market 2018 – By Analyzing the Performance of Various Competitors

PUNE, INDIA, April 12, 2018 /EINPresswire.com/ -- Synopsis

The US, being the major economy and trading power in the Americas, has the largest volume of trade through its ports in the region. Its busiest container port is Los Angeles, with 8.86 million ten foot equivalent units (TEU) in 2016, albeit ranked only 18th in the global league, which is dominated by ports in Asia-Pacific. Long Beach (California) and New York/New Jersey in second and third place handle trade through their ports of 6.77 million TEU and 6.25 million TEU respectively. The volume of waterborne trade monitored for the 35 customs districts in the US increased marginally in volume terms, going from 1.26 billion metric tons (MT) in 2015 to 1.28 billion metric tons (MT) in 2016 - a rise of 1.5%.

Summary

Construction Intelligence Center (CIC) is currently tracking port construction projects in the Americas with a total value of US\$98.1 billion; of this, US\$34.9 billion is in the planning stage. The US, the region's largest economy, accounts for the highest value with US\$27.9 billion, followed by Brazil with projects valuing US\$26.0 billion. Mexico and Canada follow with port construction projects with a value of US\$9.3 billion and US\$5.9 billion respectively. The US is responsible for the highest value project in the Americas: the US\$10.0 billion Louisiana International Gulf Transfer Terminal and has three projects in the top five by value.

Scope

The report provides analysis based on CIC projects showing total project values for the Americas and analysis by stage and funding for the top ten countries. The top 50 projects are listed for the region giving country, stage, value of port construction. Ranked listings of the key operators for the sector are also provided, showing the leading contractors, consulting engineers and project owners. Country profiles are provided for the top 10 countries, including the US, Brazil and Mexico.

Reasons to Buy

- Gain insight into the development of the port construction sector.
- Assess all major projects by value, start date, scope and stage of development for the region and top 10 countries to support business development activities.
- Plan campaigns by country based on specific project opportunities and align resources to the most attractive markets.

Key Highlights

- The total pipeline of projects is valued at US\$98.1 billion with US\$11.2 billion being spent in 2018 and US\$23.9 billion in 2019

- The highest value of projects are at the planning stage with a total value of US\$34.9 billion, followed by projects in execution with US\$32.8 billion.
- Projects in the pre-planning stage amount to US\$19.5 billion, while those at the pre-execution stage total US\$10.0 billion.
- Assuming all projects proceed as planned, spending will reach US\$92.7 billion in 2019 and fall to US\$32.4 billion in 2022. The highest value of project completions will be in 2021, with a value of US\$25.8 billion.
- The top contractor in the region is Tradeco Infraestructura Sucursal of Colombia and Yikanomi General Contractors SAC, Ltd based in Peru. The top engineer is Bechtel Corporation and Waldemar S. Nelson and Company Inc. both based in the US.
