

NuWave Communications Collaborates with Microsoft to Provide Carrier PSTN Voice Solutions for O365 & Microsoft Teams

NuWave Communications has collaborated with Microsoft & Ribbon Communications to bring carrier grade PSTN calling to Microsoft Teams & Office 365 in the US

LAS VEGAS, NEVADA, UNITED STATES, April 12, 2018 /EINPresswire.com/ -- [NuWave Communications](#), Inc. the leading communications service provider, has collaborated with Microsoft & Ribbon Communications to bring carrier grade PSTN calling features & functionality to Microsoft Teams & Office 365 in the US.

As part of Office 365, Microsoft Teams is a hub for teamwork, a chat-based workspace that enables teams to be more productive by giving them a single and secure location that brings together everything a team needs: chats, meetings, calls, files, and tools. Microsoft Teams is the one place for all the needs your teams have. NuWave enables carrier grade enterprise voice services for Office 365 users with crystal clear voice quality, geo redundancy, call analytics, and competitive pricing options.

“

We are appreciative of the opportunity to work with Microsoft and as a result of our combined efforts, NuWave is now successfully delivering a rich, robust, PSTN Voice experience for Teams users.”

Mark Bunnell, COO at NuWave.

NuWave’s carrier-grade network provides optimal uptime and reliability backed by 24-hour support and U.S.-based, geo-redundant Tier IV datacenters. NuWave’s PSTN services utilize Ribbon Communications’ family of next generation session border controllers (SBCs) to provide robust security, simplified interoperability, advanced session management, and carrier grade reliability.

“We are appreciative of the opportunity to work with Microsoft and as a result of our combined efforts, NuWave is now successfully delivering a rich, robust, PSTN Voice experience for Teams users.” said [Mark Bunnell](#), COO at NuWave.
