Food & Grocery Retailing in Hungary

Overview

"Food & Grocery Retailing in Hungary, Market Shares, Summary & Forecasts to 2021", provides data for historic and forecast retail sales, and also includes information on the business environment and country risk related to Hungary retail environment. In addition, it analyzes the key consumer trends influencing Hungary food and grocery retail industry.

The recovery of economic growth, increase in wages, and increasing awareness of healthy eating habits will drive sector sales over the forecast period. However, economic uncertainty over the past few years has made Hungarians shift their preference to private label brands that offer better value, and this trend will continue during the 2016 -2021 period.
