

CT Global (CTG) Christian Cryptocurrency Begins Open Market Trading Today

Crypto for the Global Christian Community was underwritten by Christian Traders Inc. Tokens were offered at \$1 each during Pre-Sale. Last Trade \$4.00+ U.S.!

PHOENIX, AZ, UNITED STATES, April 13, 2018 /EINPresswire.com/ -- [Christian Traders](#) is pleased to announce their cryptocurrency CT Global (CTG), begins open market trading today, Friday, 04/13/18 on the [ForkDelta](#) Exchange. The Pre-Sale which ended January 31, 2018, was deemed a great success. The CTG development team, along with community members are excited to see

CT Global finally reach this very important milestone. Statements issued by members of the team and the community reflect a combination of exhaustion, exhilaration, and cautious optimism, as their labor of love and technology finds its place on the world stage.

“

I think the internet is going to be one of the major forces for reducing the role of government. The one thing that's missing but that will soon be developed, is a reliable e-cash.”

Milton Friedman - Nobel Prize Winner

bank account due to a lack of proper identification and in many cases the simple inability to put together at one time, the minimum monetary amount required by banks and other financial institutions to fund an account.

These challenges have prevented small businesses and entrepreneurs in third world countries and developing nations from participating in the rapid expansion of the global economy. As an American, Canadian, or European, many have driven through poor neighborhoods in their own country and felt a twinge of guilt because while so many have so much, the larger percentage on a global scale, have so little. "The poor will always be with you" Jesus said. He went on to say, "Whatever you do for the least of these, you have done for me".

With 2.4 Billion Christians Worldwide

The power is not in the Token...

Christian Traders, [CFRN](#), and their respective communities along with parent company CT Global Media are determined to make a difference through the introduction (beginning today) of the CT Global Token. All parties mentioned believe the CT Global Token will play a major role in removing barriers that have kept much of the world's population trapped in a never-ending cycle of poverty.

While the team and community at large are fully aware that money does not solve all problems. Research from the World Bank, World Vision, and other respected charitable, research, and educational organizations all agree on at least one thing. The lack of proper finances is the primary cause behind much of the violence, disease, and hunger that exists in the world today.

In the amount of time it takes you to read this sentence, someone in the third world will die due to a lack of basic inexpensive medicine such as penicillin. As you read this next sentence someone will die of hunger or hunger-related diseases. Last but not least, as you finish this sentence, someone (most likely a child or an elderly person) will die because they do not have access to clean drinking water.

Access to healthcare, nutritious food, and clean drinking water are things most of us in first world nations simply take for granted.

Herein lies the conundrum. Money alone will not eradicate these issues. America and the UK just to name two, pour billions of dollars into these countries on an annual basis and have done so for well over a century. Why then do these problems still exist? Unfortunately, very little of the financial aid sent, ever makes it to those who so desperately need it. There is much corruption, from the highest levels of government to the police officer and soldier who took an oath to serve and protect those around them.

The CT Global Token (CTG) has the power to remove the middleman. Through the use of blockchain technology, Christian Traders will be able to reach and help individuals, families, communities, churches, even orphanages in a meaningful way for the first time in history. It will also allow Christian businessmen and women around the world to reach their target demographic in a cost-effective manner through the CT Global Media Advertising Platform. The platform consists of a radio station and a network of web properties that appeal to those who share similar goals, hopes, dreams, morals, and values. With half a dozen properties already online and another ten scheduled by years end, we believe the CT Global Media Platform will serve as a conduit to the 2.4 billion Christians worldwide.

Advertisers who use the CT Global Token as a method of payment will receive a 50% discount off listed prices. Then, 25% of net profits will go directly to fund C-TAP the Christian Traders Agricultural Project designed to create jobs for the chronically unemployed and in turn, produce nutritious vegetables for the children of New Hope Orphanage which was started by the founder of Christian Traders and his wife in 2000. Additionally, the surplus food will be shared with Aggies Baby Home, as well as surrounding villagers.

To begin building your own portfolio today, visit the ForkDelta Exchange and from the drop-down list select CTG and you will be taken directly to the CTG Order Book.
