

# +30% CAGR Growth to be Achieved by Augmented Reality and Mixed Reality Market Forecast 2025, know Market Driving Factors

*This research assesses AR, MR, and other immersive technology components, the AR/MR ecosystem, and competitive landscape.*

PUNE, MAHARASHTRA, INDIA, April 15, 2018 /EINPresswire.com/ -- The Global [Augmented Reality and Mixed Reality](#) Market to Grow steadily at a CAGR of +30% during the forecast period.

Assisted or Augmented Reality (AR) represents a live (direct or indirect), view of a physical, real-world environment in which certain elements are augmented by computer-generated sensory input. In addition to a visual overlay, AR may also provide audio and tactile inputs to the user, and rely upon presence and positioning technologies to present location-specific sensory inputs and information to the user. In this manner, AR represents a blending of information technology and media within a real-world environment for the benefit of consumer, business, and industrial users.

A comprehensive analysis of the Global Augmented Reality and Mixed Reality Market has been conducted in this intelligence report. It includes the investigations carried out on the historical progressions, ongoing market scenarios, and future prospects. An accurate data of the products, strategies and market shares of leading companies in this particular market has been mentioned. This report presents a comprehensive overview of the competitive scenario of the global market. The report further projects the size and valuation of the global market throughout the forecast period.

Companies Profiled in this report includes, Medtronic, Philips, Cisco Systems, IBM Corporation, Microsoft Corporation, SAP SE, Honeywell Life Care Solutions, Stanley Healthcare, Qualcomm Life, Inc., HealthSaaS, Inc.

The global augmented reality & virtual reality market is segmented into two major categories, on the basis of technology into augmented and virtual reality technologies, on the basis of sensors and components into sensors, semiconductor components, augmented reality sensors and components,

virtual reality sensors and components. The market is also segmented by application into E-commerce, gaming, medical, education, military and other industrial applications. The market is further segmented by geography into North America, Asia Pacific, Europe and rest of the world regions. Among these regional markets, Asia Pacific registered the fastest growth rate during the forecast period from 2018 to 2025.

The regions which have been studied in depth are North America, Europe, Asia-Pacific, Middle East & Africa and Latin America. This helps gain a better idea about the spread of this particular market in respective regions. A list of leading key players has been given prime value to ensure their strategies are understood in this Augmented Reality and Mixed Reality market.

The best thing about this measurable surveying report is that the significance and presentation of this market have been described. Moreover, several market essential experts and purchasing criteria have been upheld in the report. Accordingly, this measurable reviewing report is an incredible breath for sorting out new speculation endeavors, arranging how to deal with the market patterns and so on of the Augmented Reality and Mixed Reality Market.

To conclude, contemplation of the noteworthy enactment of the Global Augmented Reality and Mixed Reality Market is driven by various analysis tools and wide-ranging research reports. Citations are engaged to mount clear results and validate them.

## Table of Contents

### Global Augmented Reality and Mixed Reality Market Research Report 2018

Chapter 1	Global Augmented Reality and Mixed Reality Market Overview
Chapter 2	Global Economic Impact on Industry
Chapter 3	Global Market Competition by Manufacturers
Chapter 4	Global Production, Revenue (Value) by Region
Chapter 5	Global Supply (Production), Consumption, Export
Chapter 6	Production, Revenue (Value), Price Trend by Type
Chapter 7	Market Analysis by Application
Chapter 8	Manufacturing Cost Analysis
Chapter 9	Industrial Chain, Sourcing Strategy and Downstream Buyers
Chapter 10	Marketing Strategy Analysis, Distributors/Traders
Chapter 11	Market Effect Factors Analysis
Chapter 12	Market Forecast
