EIN PRESSWIRE

Artificial Intelligence in Healthcare Market to grow at a CAGR of +48% during Forecast Period

Informative Report on Artificial Intelligence in Healthcare Market Trends, Analysis by Regions, Type, Application, Market Drivers, Restraints Forecasts

PUNE, MAHARASHTRA, INDIA, April 15, 2018 /EINPresswire.com/ -- Artificial intelligence (AI) in the medical and health field uses algorithms and software to approximate human cognition in complex medical data analysis. Specifically, artificial intelligence is the ability of computer algorithms to draw conclusions without direct human input. The main purpose of health-related AI applications is to analyze the relationship between prevention or treatment techniques and patient outcomes. The AI program has been developed and applied to diagnostic procedures, therapeutic protocol development, drug development, personalized medicine, and patient monitoring and nursing practices.

The Global Artificial Intelligence in Healthcare market report is a comprehensive overview of the market covering various aspects such as product definition, various parameter-based segmentation, distribution channels, supply chain analysis, and common vendor environments. Through proven research methods, we collect thorough information that identifies the source. Artificial Intelligence in Healthcare Information about the market can be accessed in a logical format in a smart format. There are graphs and tables in place to help readers get a better view of the global Artificial Intelligence in Healthcare market.

Companies Profiled in this report includes: Shimadzu Recursion Pharmaceuticals, Inc., Siemens Healthineers, General Electric (GE) Company, Koninklijke Philips N.V., Cloudmedx, Inc., and Bay Labs, Inc.

The report also includes the industry value chain, market size and Potter's five-force analysis of the Artificial Intelligence in Healthcare market. It outlines the company, products, services, financial analysis, and key developments of major players in the market. All percentage shares, splits and failures were determined using secondary sources and verified by major sources. This report also focuses on the various drivers and constraints that currently affect the market, hindering the challenges of market growth and opportunities for market growth.

Global Artificial Intelligence in Healthcare Market projected to grow at CAGR of +48% from 2018 to 2023

This report is an extension of our previous research on the Artificial Intelligence in Healthcare market and is expected to provide valuable insights impacting the growth of this market across the globe. Our research report on Artificial Intelligence in Healthcare market offers our clients an overall understanding of the competitive scenario and help them make better business decisions.

Based on geographical areas, the world Artificial Intelligence in Healthcare markets are broadly divided into Latin America, Europe, the Middle East and Africa and Asia Pacific. The world market is still in exploration in most areas, but it has the promising potential to grow steadily over the next few years. The major players investing in this market are in Canada, the United Kingdom, the United States, India, China and some Asia Pacific countries. As a result, Asia Pacific, North America and Western Europe are expected to account for more than half of the total market share over the next few years.

At the end of the report, a manufacturer is announced who is responsible for increasing sales in the Artificial Intelligence in Healthcare market. These manufacturers have been analyzed in terms of manufacturing base, basic information and competitors. In addition, the technology and product types introduced by each manufacturer are also an important part of this section of the report.

Table of Content:
Global Artificial Intelligence in Healthcare Market Research Report 2018-2023
Chapter 1 Artificial Intelligence in Healthcare Market Overview
Chapter 2 Global Economic Impact
Chapter 3 Competition by Manufacturer
Chapter 4 Production, Revenue (Value) by Region
Chapter 5 Supply (Production), Consumption, Export, Import by Regions
Chapter 6 Production, Revenue (Value), Price Trend by Type
Chapter 7 Analysis by Application
Chapter 8 Manufacturing Cost Analysis
Chapter 9 Industrial Chain, Sourcing Strategy and Downstream Buyers
Chapter 10 Marketing Strategy Analysis, Distributors/Traders
Chapter 11 Market Effect Factors Analysis
Chapter 12 Market Forecast
Chapter 13 Appendix
