PUNE, MAHARASHTRA, INDIA, April 16, 2018 /EINPresswire.com/ -- “Global Massive Open Online Courses (MOOCs) Market Professional Survey Report to 2022” Purchase This Report by calling QYReports.com.

“A massive open online course is an online course aimed at unlimited participation and open access via the web. In addition to traditional course materials such as filmed lectures, readings, and problem sets, many MOOCs provide interactive user forums to support community interactions among students, professors, and teaching assistants (TAs).”

MOOCs is gaining sustained interest from the learner base in developing economies, specifically in non-OECD (organization for economic co-operation and development) low-income nations because [MOOC](#) providers are offering specific courses in the areas of entrance examinations and college degree courses. This is identified as one of the key trends that will gain traction in the MOOCs market for the next four years. Massive open online courses are gaining popularity in developing economies because they enable drop-out learners to continue their education despite time and financial barriers.
