

Nations Property Solutions (NPS) Announces Large Growth in 2017 and a Tripling of Staff.

NPS has also likely grown due to PRISM™, a high-level proprietary operating system.

OVERLAND PARK, KANSAS, USA, April 16, 2018 /EINPresswire.com/ -- [Nations Property Solutions, Inc. \(NPS\)](#) a division of the Nations Companies and a national provider of property management services, today announced tremendous growth in 2017 and a large tripling of staff. "NPS believes that the two major reasons for our growth in 2017 were due to both lenders and servicers moving back to outsourcing and perhaps a result of a shake-up among major competitors. We are just glad to create jobs and add staffing," commented [Chuck Burton](#), President of NPS.

Working with national mortgage lenders and servicers since 1996, NPS has also likely grown due to [PRISM™](#), a high-level proprietary operating system that the company successfully developed over twenty years ago.

Through PRISM™, clients receive the strictest levels of security via SSAE18 Type II with 3rd party Certification via Grant Thornton. Additionally, NPS offers their clients national real time online tracking for all property management and preservation services.

The company Nations Property Solutions, Inc. (NPS) is a division of the Nations Companies, which is a diversified provider of real estate information services including Title, Appraisal, and Default. Established in 1989, Nations is one of the most established national providers of these services to large national mortgage lenders in the U.S. With branches nationwide, NPS offers SSAE18 Security, and XML exchange services: <http://www.nationscompanies.com//>
