

# Medicare Made Clear - What is Medicare And How Do You Claim It?

*Learn All You Need To Know About Medicare Through Medicare Videos!*

TREASURE ISLAND, FL, UNITED STATES OF AMERICA, April 18, 2018 /EINPresswire.com/ -- April 16 2018 - (St Petersburg, FL): Everyone wants to know, [what is Medicare](#) and how will it help me? Medicare is a confusing system, and a lot of people either don't understand it fully, or are missing out on the benefits. Every day, more than 10,000 people turn 65, and most of them will enter Medicare, but what is Medicare?

The system exists to help ensure that people can get the medical services they need without breaking the bank. It makes medicine affordable and is a great leveler when it comes to accessing expensive treatments. Many people do not understand how to enroll, or what the different elements of Medicare are. What is Medicare Part A and Part B? How do these differ from Parts C and D? Are you confident that you are not missing out on important cover?

“

It is very heartening to know that people find value in my videos. I try my hardest to put Medicare in elementary terms so that anyone can understand.”

Medicare at age 65, and a lot more could be done to help people understand what they need to do when they start Medicare.

Video creator Keith Armbrecht noted that Medicare on Video's content offers an invaluable service to people who are just moving into the Part A and Part B coverage systems. He said that the original video content they create, including an overview of the Show Me Guide that is provided by United Healthcare, is something that can be a huge help to seniors who need guidance to start Medicare.

The question "What is Medicare" is an incredibly broad one. It would make more sense to question the different plans and what you need. Plans can change at any time, and most people will need to pay a premium to enroll on some of the additional coverage. Part D, for example, is a plan that covers prescription drugs, but there are co-payments and coinsurance options. Part C replaces the Original Medicare, but those who opt to stay on Original Medicare can pay a supplement, known as Medigap, to help with out-of-pocket expenses.

### A Confusing Set of Options Explained

The videos that Medicare on Video provides answer those tricky questions about what each plan does, what you need to do to get cover, and which cover makes the most sense. They explain the costs and the benefits, and help seniors to avoid unexpected charges or gaps in their coverage. Medicare benefits are invaluable for those on a lower income, but the system does let some people slip through the net. Medicare On Video aims to ensure that their viewers get comprehensive and affordable coverage, and take advantage of all of the benefits being offered.

Medicare on Video's goal is to help people navigate the confusing elements of Medicare coverage. Armbrecht said, "It is very heartening to know that people find value in my videos". If you would like to learn more about Medicare, and understand the policies yourself, then search Medicare on Video and browse the channel on YouTube. There are already 6,000 subscribers, and the channel has racked up 500,000 views.
