The Colorado Mesothelioma Victims Center wants to emphasize theirs is a statewide initiative available to a diagnosed anywhere in Colorado including communities such as Denver, Colorado Springs, Golden Leadville, Brighton, Durango, or Parker.

For the best possible mesothelioma treatment options in Colorado the Colorado Mesothelioma Victims Center strongly recommends the following health care facility with the offer to help a diagnosed victim, or their family get to the right physicians at this hospital: The University of Colorado Cancer Center for diagnosed victims in the Centennial State or the victim's family:<http://www.ucdenver.edu/academics/colleges/medicalschool/centers/cancercenter/Pages/CancerCenter.aspx>.

High-risk work groups for exposure to asbestos in Colorado include US Navy Veterans, power plant workers, oil refinery workers, miners, manufacturing workers, plumbers, electricians, auto mechanics, machinists, or construction workers. In most instances, these types of workers were exposed to asbestos in the 1950's, 1960's, 1970's, or 1980's.

The states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon. However, mesothelioma does happen in Colorado.

However, based on the calls the Mesothelioma Victims Center receives a diagnosed victim of mesothelioma could live in any state including Colorado.
