

Bitcoin B2G Coin Value Surges Past \$60, Now \$3B Market Cap

Worldwide acceptance of the Bitcoin B2G ecosystem has proceeded more quickly than predicted.

HONG KONG, CHINA, April 18, 2018 /EINPresswire.com/ -- [Bitcoin B2G](http://BitcoinB2G.com) (www.bitcoin.com), currently trading at \$60.01, announces its latest market capitalization stands at \$3,076,110,255.00 USD. These new results, in 24-hour global trading as of April 16, 2018, reflect astonishing growth in a week's trading. Bitcoin B2G, which launched on April 9, 2018, has achieved this stunning result in less than seven days of open-market trading.

Twenty-four hour volume stands at \$26,376,627.00 an increase of nearly \$4M in daily turnover, as compared to Friday, April 13th's results. The current circulating supply remains 50,000,000. This [cryptocurrency](#) will max out at 100,000,000 coins.

Meanwhile, Bitcoin B2G's organizers continue to press for listing on word trading platforms. The goal is not just increasing Bitcoin B2G's share of the cryptocurrency exchange marketplace, but to promote the revolutionary principles behind the blockchain, including a perpetual transparent audit trail, anonymity, and security available to all. As a by-product, early adopters, traders and depositors have benefited substantially.

Astonishing Early Growth Curve: Worldwide acceptance of the Bitcoin B2G ecosystem has proceeded more quickly than predicted. Bitcoin B2G's designers have installed new mining and support servers, leading to a second phase of growth. As more and more merchants and service providers worldwide accept B2G as a trading unit of global trade, the original vision of cryptocurrency as a decentralized, peer-to-peer currency comes into clearer real-world focus.

Payment Systems: Bitcoin B2G's payment systems are growing also, as the system architecture proves itself. Bitcoin B2G looks forward to announcing payment solutions in the near future, including card and merchant direct payment acceptance systems. Bitcoin B2G remains an independent, self-sufficient ecosystem, uniquely self-sustaining and available for borderless trade, unbanked populations, and anonymous asset transfers. Bitcoin B2G's organizers believe the current explosive
