North America accounted for the largest share of the global market, followed by Europe, Asia-Pacific, and RoW. Growth in the developed markets in North America and Europe is mainly driven by the

government regulations and initiatives, high adoption of accountable care solutions and the presence of major companies in this region. As opposed to the North American and European markets, the demand in the APAC and Latin American markets is primarily driven by the growth in the overall healthcare industry. With the rapid rise in the number of patients, demand for quality care, increasing number of hospitals, there will be an upsurge in the demand for HCIT solutions in these regions.
