

CompanionLink releases Galaxy S9 Sync for Outlook on PC and Mac

Fast and easy sync for Contacts, Calendar, Tasks and Notes from your PC to your Phone without paying Microsoft a monthly fee.

PORTLAND, OR, UNITED STATES, April 19, 2018 /EINPresswire.com/ --

CompanionLink Software has released [CompanionLink for Outlook Sync](#) for Samsung Galaxy S9 and Galaxy S9-Plus smartphones. Featured is the DejaOffice CRM App for Outlook available in the Google Play store. DejaOffice® is a PC Style CRM that works the same way as Outlook on your PC. DejaOffice features Day, Week and Month view calendars, Tasks and Notes with a focus on effective business use. DejaOffice includes Category Colors, Persistent Alarms, Recurring Tasks, Quick Entry Templates, and Android Widgets.

“The Galaxy S9-Plus has a larger display size which helps me handle my schedule better,” says Wayland Bruns, Chief Technical Officer at CompanionLink. “I need the large screen to show my full calendar and detailed contact list. Whenever I go to a new client, I need the maps to give me directions. DejaOffice Widgets allow me to see today’s schedule, and my month schedule, right on my Android desktop without needing to open the App. It’s all about saving time and motion that lets me use my phone for business without a struggle.”

CompanionLink® uses a proprietary sync system that is not dependent on Microsoft Exchange. CompanionLink fully supports all Outlook fields including Category Colors, Tasks, Notes, Journal, Attachments, and Pictures. With CompanionLink you can use USB, Wi-Fi, Bluetooth and DejaCloud sync. DejaCloud is a subscription service which provides instant real-time sync to multiple PC’s and phones. Just enter a

CompanionLink for Outlook and Samsung Galaxy

new Contact or Calendar item, and you will see it on your desktop, laptop and tablet within seconds, without needing to pay Microsoft or an Exchange host for sync service.

[DejaOffice for Android](#) is free and can be downloaded from the Google Play store. For iPhone customers, DejaOffice for iOS is also available. CompanionLink for Outlook is \$49.95 and one license can be used for either PC or Mac. CompanionLink is one of the rare software vendors that answers the phone and helps you install and use the software. Premium support options are available including a service to set up your synchronization and handle any issues you need with PC sync to your phone. For more information, visit <https://www.companionlink.com/android/outlook/>.

CompanionLink has published a guide on how to use Outlook without paying a subscription charge. You can find the guide here:
