

Global Magnesium Sulphate Market Analysis & Forecast to 2023

PUNE, INDIA, April 20, 2018 /EINPresswire.com/ -- WiseGuyReports.com with their unique quality of simplifying the market research study, presents a deep diving study report "Global Magnesium Sulphate Market Research Report - Forecast to 2023"

Magnesium Sulphate

Overview

The global magnesium sulphate market was valued at USD 889 million in 2016 and is estimated to reach USD 1274.0 million by 2023 expanding at a CAGR of 5.39% during the forecast period. According to type segment, Heptahydrate (Epsom salt) was the most promising segment, accounting for the largest global share of around two-third of the total market share due to tremendous fertilizers in the agriculture sector. Increasing population along with the rising demand for good quality crop production has raised the consumption of good quality fertilizer which in turn is estimated to drive the growth of the market over the estimated period.

Magnesium sulphate is widely used in drugs for the treatment of seizures associated with eclampsia. Moreover, increasing awareness regarding the benefits associated with magnesium sulphate along with the continuous growth of pharmaceutical and healthcare sector across the globe, is estimated to drive the growth of the market during the review period. The rising innovation and technological advancement in the medical & healthcare sector has presented a lucrative opportunity for the market growth.
