

Reliability Partners Ready to Advance Asset Management at Record Breaking RELIABILITY Conference

Reliabilityweb.com announces record attendance for the 13th RELIABILITY Conference

LAS VEGAS, NEVADA, US, April 23, 2018 /EINPresswire.com/ --

Reliabilityweb.com® announces record attendance for the 13th [RELIABILITY® Conference](http://RELIABILITYConference) being held April 23-27, 2018 in Las Vegas, Nevada. The RELIABILITY Conference attracts over 650 individuals from asset-intensive organizations from over twenty countries who use Uptime® Elements - A Reliability Framework and Asset Management System™ to improve asset availability, safety, production and sustainability.

The
RELIABILITY®
Conference
— Las Vegas —

Conference topics include:

The RELIABILITY Conference participation is up 25% over 2017."

Terrence O'Hanlon

- Artificial Intelligence
- Machine Learning
- Internet of Things
- Leadership for Reliability
- Asset Management
- Reliability Engineering for Maintenance
- Asset Condition Management

- Work Execution Management

Highlights from this learning event:

- The RELIABILITY Conference expo, featuring world-class solution providers, including sixteen of the 2018 Reliability Partners. Reliability Partners align delivery of their products, technology and services around Uptime Elements - A Reliability Framework and Asset Management System.
- The Reliability Leadership Institute® Community of Practice (CoP) will hold a working meeting to develop the characteristics of the world's most perfect work order.
- Women in Reliability and Asset Management (WIRAM), a group with over 800 members worldwide, will host a member dinner with a special presentation from social media expert, Brynne Tillman.
- A focused panel on the skills shortage crisis featuring Stan Shoun, President of Ranken Technical College, along with representatives from the Association of Facilities Engineers, Vibration Institute,

WIRAM, The Association of Asset Management Professionals and others interested in advancing reliability skills within the industry.

- Over 70 professionals will participate in a special 4-day Certified Reliability Leader® workshop and exam, co-located with the RELIABILITY Conference.

According to conference producer and Reliabilityweb.com CEO, Terrence O'Hanlon, The RELIABILITY Conference participation is up 25% over 2017. O'Hanlon states, "There are many choices in conferences, and we are honored that so many choose the same values the Reliabilityweb.com team works towards:

Integrity
Authenticity
Responsibility
Aim

Conferences are a tough, risky and competitive business, and we certainly have our share of bruises earned from twenty years of professional event production. The Reliabilityweb.com team is the best it has ever been, and we are committed to making the people we serve safer and more successful."

Professional competency development opportunities available at The RELIABILITY Conference include 8 pre-conference workshops, 90 reliability case studies, 2 keynotes, 2 panels and 6 post-conference workshops, including the new Reliability Leadership Game.

The 2018 RELIABILITY Conference continues to build on the 2017 Founders Meeting for the Artificial Intelligence and Internet of Things Technology Showcase with five full days of machine-assisted asset management learning and case studies focused on asset-intensive industries seeking to advance reliability. The conference closes with an expert panel on machine-assisted asset management through the application of augmented reality.

A special announcement will be made on the 14th RELIABILITY Conference, taking place in Seattle, Washington on May 6-10, 2019.
