

Winning Against Breast Cancer through Abudo's Online Education and Awareness Initiative

Abudo recently launched its online course on Breast cancer as an initiative for health education and disease management to help control the incidence

PALO ALTO, CALIFORNIA, UNITED STATES, May 25, 2018

/EINPresswire.com/ -- In "November 2017", [Abudo](#) successfully debuted its first online course on Breast Cancer with the end goal to create awareness about the disease progression and management. Breast cancer is the fifth most common cause of death from cancer in women which is why Abudo is targeting patients, their friends, family and coworkers to understand the disease and stop the steady rise in its incidence. This online course on Breast cancer is an initiative taken by Abudo in order to provide easy and structured disease education to to win against breast cancer.

"Abudo believes that raising awareness about the disease, providing guidance about its control and advocating for appropriate policies and programmes are key strategies to fight breast cancer" claims Abudo's CEO Tariq Khurshid. He further emphasizes that "Abudo is an authentic and well-researched content provider on Breast Cancer and is one of the best platforms to address the issues regarding this widely prevalent disease"

With over 70k online health success education disseminators, Abudo's vision reflects gaining a competitive edge by providing 100% unbiased and impartial education about Breast Cancer. Abudo understands people today are much aware than they previously were, however in 2018, an estimated 266,120 new cases of invasive breast cancer are expected to be diagnosed in women in the U.S and about 2,550 new cases in men which is why Abudo contends that there is still a need to educate people about Breast cancer, debunk common misconceptions, myths and stigmas associated with it.

With the first phase absolutely free, Abudo offers subsidized subscriptions for interested individuals. This [Breast Cancer Course](#) is online and available 24/7. Patients and relatives can simply sign up for a course and access it from their desktop or mobile any anywhere, at any time with absolutely no age, gender or accessibility restriction. Moreover, this one of its kind initiative by Abudo offers value adding guidelines and checklists to improve quality of life all while endeavoring to help patients and

caregivers manage stress, improve lifestyle and lead a healthy life. This course is a complete informative instruction manual as well as a certified Breast Cancer awareness disseminator which provides value for money by giving out all the benefits for just \$15.

About Abudo:
