The New York Mesothelioma Victims Center specializes in financial compensation for diagnosed victims of mesothelioma. High-risk work groups for exposure to asbestos in New York include US Navy Veterans, power plant workers, maritime workers, shipyard workers, manufacturing, or industrial workers, plumbers, welders, electricians, auto mechanics, machinists, miners, railroad workers or construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's. Navy Veterans make up about one third of all people diagnosed with mesothelioma in the United States each year.

The states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois,

Power plant workers and the skilled trades workers who keep a power plant operational are often at the top tier for compensation if they have been diagnosed with mesothelioma.”
