The automotive industry is one of the most competitive industries, across the globe. Major manufacturers across various continents often compete against each other to expand their customer base resulting in intense competition. This results in a high quality product being delivered to the customers, which drives the automotive interior components market. The market is further expected to be driven by the rising level of income of individuals and the booming global automotive industry and is expected to reach valuation of USD 355.5 billion by 2022, growing at a rate of 7.07%

Study Objectives of Global Automotive Interior components market

To provide detailed analysis of the market structure along with forecast for the next five years of the various segments and sub-segments of the global automotive interior components market

- To provide insights about factors affecting the market growth
- To analyze the global automotive interior components market based on various tools such as Supply Chain Analysis, and Porter's Five Force Analysis
- To provide historical and forecast revenue of the market segments and sub-segments with respect to regions and their respective key countries
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segments by material vehicle type, components and region
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the automotive interior components market

Regional Analysis

Automotive Interior Components

Asia-Pacific region currently has the highest market share and along with the North American region

is expected to drive the growth of the market due to the continuous increase in automobile sales activities. In countries such as China, India of the Asia-Pacific region, the growing population and the increased demand for automobiles are driving the market. Government initiatives and the booming automotive industry in the regions are expected to drive the demand for automotive interior components market.

Key Players

The key players of global automotive interior components markets are Toyoda Gosei Co. Ltd (Japan), Toyota Boshoku Corporation (Japan), Lear Corporation (U.S), NTF India Pvt Ltd (India), Sage Automotive Interiors. Inc (U.S), BASF Automotive Solutions (Germany), and Faurecia S.A (France).

Intended Audience

- Distributer & Supplier companies
- End Users
- Consultants and Investment bankers
- Government as well as Independent Regulatory Authorities

Product Analysis

- Product matrix which gives a detailed comparison of the market for different recycled product types

Additional Information

- Regulatory Landscape
- Pricing Analysis
- Macroeconomic Indicators

Geographic Analysis

- Geographical analysis across 15 countries

Company Information

- Profiling of 10 key market players
- In-depth analysis including SWOT analysis, and strategy information of related to report title
- Competitive landscape including emerging trends adopted by major companies

The report for Global Automotive Interior Components Market of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

Table of Content: Key Points

1	Introduction	10
1.1	Definition	10
1.2	Scope of the Study	10
1.3	Assumptions	10
1.4	Market Structure	11
2	Research Methodology	12
2.1	Research Process	12
2.2	Primary Research	12
2.3	Secondary Research	13
2.4	Market Size Estimation	13
2.5	Forecast Model	15
3	Market Dynamics	16
3.1	Drivers	16

- 3.2 Restraints 18
- 4 Market Factor Analysis 19
 - 4.1 Supply Chain Analysis 19
 - 4.2 Porter's Five Forces Analysis 20
- 5 Global Automotive Interior Components Market, By Vehicle Type 22
- 6 Global Automotive Interior Components Market, By Components 26
- 7 Automotive Interior Components Market, By Region 29
- ...Continued
