

Acino relaunches Contract Manufacturing

We are excited to share that we have re-launched our Contract Manufacturing offer under our new brand “Acino Contract Manufacturing”.

ZURICH, ZURICH, SWITZERLAND, April 24, 2018 /EINPresswire.com/ -- We have been working intensely over the past months to evaluate and improve the services we are offering and from today, we are proud to promote full service [contract manufacturing](#) to pharmaceutical companies worldwide.

We're always investing and upgrading: It's not just technology, training and our sites that we invest in and worked on; we also invest our time to see where we can make the customer experience even better.

We've upgraded how we work internally, following a customer-centric approach by focusing on customer needs to provide a faster, flexible and more responsive and improved experience, resulting in higher customer satisfaction.

Whether you are an existing customer or want to partner with us to get your products manufactured in a company with a formidable track record of quality, know-how and service excellence, we are looking forward to work with you.

“

When you out-source your product to someone else, it is like giving away your child or baby for someone to look after: you want to be sure that they are in safe and reliable hands.”

Felix Faupel, Global Key Account Manager, CMO Acino.

Our offer, more clearly explained on our [website](#): From today, you will find a set of pages on our website that clearly explains our capabilities and offering.

Find out how you can rely on Acino for bulk, granulation, pelletization manufacturing, primary & secondary packaging for oral solid dosage (OSD) forms and the project management, regulatory and sourcing services we can additionally supply.

For more information go to our new Contract Manufacturing pages or get in touch with the team. We are looking forward to get in touch with you!

"When you out-source your product to someone else, it is like giving away your child or baby for someone to look after: you want to be sure that they are in safe and reliable hands. We know it's important that you have someone reliable to trust your product with.

With our new focus on contract manufacturing and the related intensive preparations to re-launch our offerings and services to the pharmaceutical industry, we strongly believe that we are ready to take over these big responsibilities from you and welcome more members to our Acino family."

– Felix Faupel, Global Key Account Manager, CMO Acino.
