

accelQ brings industry thought leader Shoshi Gutreich as its strategic advisor

accelQ adds industry thought leader Shoshi Gutreich as its strategic advisor to expand their R&D and product innovation operations

SAN FRANCISCO, CALIFORNIA, USA, April 25, 2018 /EINPresswire.com/ -- San Francisco, USA, (April 12, 2018): accelQ, a leading provider of cloud-based [Continuous Testing](#) platform for functional & API automation, has announced the appointment of Shoshi Gutreich as its Strategic Advisor.

Shoshi a veteran R&D and thought-leader with over 20 years of experience in the software industry, Shoshi has experienced the test automation revolution first hand leading from the front as the Chief Functional Architect at Mercury (later HP). She was instrumental in developing, the first generation market leading tools in Application Quality management and automation such as WinRunner, UFT, QTP, HP ALM, Quality center, etc. Under her technical guidance, these tools acquired a major market share, with annual revenues up to \$500 million, serving over 7000 customers and thousands of users across the globe.

Mahendra Alladi

Speaking on the occasion, Mr. Mahendra Alladi, Founder & CEO, accelQ, said, “We are very excited to onboard Shoshi and welcome her part of the leadership team. She brings an exceptional

“

Ms. Shoshi commented, “I am happy to be associated with the all-star team at accelQ. I look forward to being part of this innovative AI driven next-gen platform.”

Shoshi Gutreich

perspective in this space. Being a leader in Application Quality Assurance, she has seen the evolution of test automation first hand and how sustainability and reliability have become major challenges. As we try to redefine conventional thought process in test automation, Shoshi’s insights are a great compliment and will help accelQ be the leader in this domain.”

Ms. Shoshi commented, “I am happy to be associated with the all-star team at accelQ. I look forward to being part of this innovative AI driven next-gen platform. accelQ has already

made quite an impact with its growing customer base and I’m excited about this partnership”

About accelQ

accelQ is the only cloud-based continuous testing platform today that seamlessly automates API and [web testing](#) without writing a single line of code. It is used by IT teams of all sizes to accelerate their

testing by automating critical aspects of lifecycle like test design, planning, test generation and execution. It drives automation with smart-view recording coupled with powerful natural language automation to handle the most complex testing and automation requirements. accelQ helps its customers to save over 70% of the cost involved in the change & maintenance efforts in testing, addressing one of the major pain points in the industry. accelQ makes this possible with an AI-powered core to bring self-healing automation amongst other unique capabilities.
