

# Data Center Liquid Immersion Cooling Market Expected to Increase at a CAGR 54.36% through 2016 to 2020

PUNE, MAHARASHTRA, INDIA, April 25, 2018  
/EINPresswire.com/ -- Data Center Liquid Immersion Cooling Market

## Summary

Data centers have shown tremendous growth in the past few years. Growing digital content, expanding IOT market, and increase in the number of internet users around the world have led to the deployment of a very high number of data centers. It has been expected that the market of data centers will grow at CAGR of more than 28% after the year 2012.

This also indicates that if the demand for data centers increases, the power consumption to run the data centers will also grow exponentially. A recent study shows that in the United States, data centers consumed about seventy billion KW of energy, which is equivalent to the amount of electricity consumed by about 6.4 million average American homes. Data centers power consumption in the United States accounts for 2% of the total energy. As these centers need a continuous flow of energy to run on, they also need to be cooled, which requires the deployment of a lot of equipment to maintain low ambient temperature of the data centers.

## Key Players

The Key Players in Data Center Liquid Immersion Cooling Market are 3M Co. (U.S.), Fujitsu Ltd. (Japan), Iceotope Research and Development Limited (U.K.), CoolIT Systems, Inc. (Canada), LiquidCool Solutions, Inc. (U.S.), Allied Control (BitFury Group) (Hong Kong), Asetek (Denmark), Midas Green Technologies, LLC (U.S.), Ebullient, Inc. (U.S.), Green Revolution Cooling (U.S.) and Rittal GmbH and Co. Kg. (U.S.).

Global Data Center Liquid Immersion Cooling Market - Trends & Forecast, 2016-2020

- To provide detailed analysis of the market structure along with forecast for the next 5 years for the

various segments and sub-segments of the global Data Center Liquid Immersion Cooling market development and demand market

- Upcoming technologies, high growth geographies and countries were identified
- Regional and country specific demand and forecast for Data Center Liquid Immersion Cooling were studied

#### Target Audience

- System integrators
- OEMs
- Cloud Service Providers
- Technology consultants
- Enterprise service management vendors
- Consulting firms

#### Key Findings

- The Global Data Center Cooling Market has been valued at US \$5.39 billion in the year 2015 and is expected to reach at USD US \$10.10 billion by the end of forecast period with 13.36% of compound annual growth rate
- Global Data Center Liquid Immersion Cooling Market has been valued at US \$109.51 million in the year 2015
- Data Center Liquid Immersion Cooling is expected to grow at US \$959.62 million by the end of forecast period with 54.36% of CAGR
- In the global market, Americas are leading with market size of US \$51.13 million in the year 2015 which is expected to grow at US \$494.86 with CAGR of 57.45%
- Europe and Middle East & Africa stands as second biggest market where the countries such as Germany, France, Italy, and U.K. among other are leading

#### Regional and Country Analysis of Data Center Liquid Immersion Cooling Market

Data center liquid immersion cooling market has been segmented on the basis of regions, as Americas, Europe-Middle East-Africa (MEA), and Asia Pacific. The data center liquid immersion cooling market in Americas had been valued at USD 51.13 million in the year 2015, which is expected to be at USD 494.86 million by the end of forecast period with 57.45% of CAGR. North America is the fastest growing market within the Americas region. Europe stands as the second biggest market accounting for more than of 30% of the total market share.

#### Table of Contents

1	Executive Summary	8
2	Scope of the Report	10
2.1	Assumptions	10
2.1.1	Research Objective	10
2.2	Assumptions	10
2.3	Top-vendor Offerings	10
3	Market Research Methodology	12
3.1	Research Process	12
3.2	Primary Research	12
3.3	Secondary Research	13
3.4	Forecast Model	13
3.4.1	Market Size Estimation	14
4	Introduction	16
4.1	Key Market Highlights	16
