

TASK's Technical Writing Programme for the Aeronautical Engineering students

TASK collaborated with the Embry-Riddle Aeronautical University for "Technical Writing for Aviation" programme for the Aeronautical Engineering students

DALLAS, TX, USA, April 26, 2018 /EINPresswire.com/ -- Telangana Academy for Skill and Knowledge, [TASK](#), has been persistent in enhancing the knowledge and skills of students and consistently walks the extra mile by introducing industry relevant skill programs.

TASK Training Batch

The latest addition is a programme titled "Technical Writing for [Aviation](#)" for the Aeronautical Engineering students. This course was introduced in collaboration with the Embry-Riddle

Aeronautical University, ERAU, the world's largest, fully accredited university specializing in aviation and aerospace with more than 150 locations in the US, Europe, Asia and the Middle East, and through its network of online programs.

“

We are very much thankful to TASK for this initiative that has helped students to develop technical skills. The exposure to the global platform will help us emerge into professional technical writers”

Niloufer

The skilling programme is a 4-week course focusing on online and face-to-face training wherein students shall achieve learning outcomes based on rhetorical concepts, basic grammar and technical writing conventions.

Embarking the beginning of a successful career journey, this programme provides hands-on experience to the students in technical writing under continuous monitoring and

coursework. The faculty from ERAU - USA, Ms. Jennifer Roberts, through online training network sessions, skilled the students on technical writing giving them a global exposure in the aeronautical field. They were majorly trained on the technical language that is used while curating the content and developing reports/documents.

The last day of the face-face session was held on April 25th, 2018 at, which saw the participation of the faculty Ms. Kim Chua from ERAU, Singapore, who indulged the students in a serious training & practice sessions.

The pilot batch students participated in the training session and successfully completed the programme and submitted their assignments. Speaking on the occasion Ms Chua shared that it was an enriching experience for her personally and professionally to be involved in the inaugural edition of this program and she said that they are positive that this focused skilling will contribute to the students' employability quotient.

Technical Writing Course that is currently in its naive stage has received an encouraging response from the students who were inducted into the programme. Sudhanshu, a student, testified on how he was benefited by being a part of this programme. "This is not included in our curriculum and being taught of it has boosted our confidence levels to face any new career opportunities in the field of Aviation," he said.

TASK and ERAU Asia had entered into a MoU in November 2016, with an objective to collaboratively develop professional education in aviation corporate scholarships and research opportunities between the institutions and to the benefit of the aviation workforce of India.

It may be mentioned that this is one of the many initiatives that the duo are associated with. After receiving a positive response from the students and faculty, CEO TASK, Mr. Sujiv Nair shared that they are keen to explore options to introduce additional skill courses in the Aviation sector that will benefit the undergraduate students across Telangana
