

Cycle crime is on the rise in cities, protect yourself with bicycle lawyers

Bicycle crime is on the rise, cycle lawyers urge people to be protected

LONDON, UNITED KINGDOM, April 26, 2018 /EINPresswire.com/ -- A channel 5 documentary recently revealed the shocking statistics behind bicycle crime. More and more people are now choosing to cycle to work and as a hobby than ever before. The rise could be due to a number of factors such as:

- The cost of commuting
- Lifestyle changes
- Toll charges
- Parking

Choosing a bicycle for travel eliminates a lot of problems while the types of bicycle available are on the increase. Consumers can now buy folding bicycles and electrical bicycles, making the market open up to customers who never before considered a bike for commuting. These diverse offerings, however, often come with a hefty price tag, and while it makes sense to invest in a good quality bike that's bespoke to a cyclist's need, the expensive bikes are a thief's dream.

Thieves are targeting bicycle lock up stations and bike racks using sophisticated methods to steal the expensive equipment. [Bicycle lawyers](#) in London are urging riders to cover themselves with insurance while making themselves aware of the legalities should an accident happen.

As Those suffering injuries while riding a push bike are actually entitled to claim from motorists or other cyclists, with the help of bicycle lawyers. If a cyclist is injured, they are offered a free consultation and it costs nothing to make a claim.

Making a claim can make a significant difference to an injured party's life, as a cycle injury can mean that the claimant never cycles again. These cycle lawyers ensure they receive the right compensation for the level of injury suffered and have become an invaluable source in an ever changing, commuting world.

Alongside bicycles there are also other [fun ways](#) to get to work, and those using these methods will also benefit from using bicycle lawyers should they find themselves in an accident.

For more information visit Osbornes [Cycle Injuries](#) and protect yourself when out on the road.
