

Aptys Solutions Selected by PCBB to offer ACH Solutions to Community Banks

The PayLOGICS Suite will provide superior ACH origination, processing, Same-Day ACH, and on-demand access to payment data for PCBB Customers

NORCORSS, GA, UNITED STATES, April 26, 2018 /EINPresswire.com/ -- [Aptys Solutions](#), a leading provider of real-time processing and electronic payments solutions for correspondent financial institutions nationwide, announced today that [PCBB](#), a nationwide bankers' bank offering correspondent banking, lending and consulting services to community-based financial institutions, has signed an agreement to implement the ACH modules from Aptys' [PayLOGICS](#) Suite.

Aptys is the leading provider in the payments industry for providing correspondent and community financial institutions with robust payment solutions that lower operational costs and create new revenue streams through automated, end-to-end origination and processing. PayLOGICS is a revolutionary solution that provides automated payment processing for ACH, Wires, and Image Cash Letter in a single architecture. Through PayLOGICS, correspondent service providers have been able to streamline their payment services and provide respondent banks with powerful payment solutions that allow them to compete effectively with any competitor in their markets.

"With Faster Payments on the horizon, PCBB is committed to enhancing our banking offerings for our current customers and offering more flexibility to adapt to the changing payment landscape," said PCBB Senior Vice President of Operations, Allen Sztukowski. "PayLOGICS becomes a key tool to help execute some of our current mission critical activities and part of the foundation for future payments opportunities. It makes managing payments and the associated risk easier for us and for our customers."

PCBB will also benefit from PayLOGICS' Active Archive which provides tools for managing payment data all in a single location. "Efficient data management isn't just about having enough storage capacity anymore," said Eric Dotson, EVP of Sales. "Accessing and using data in a flexible infrastructure to better manage risk, reduce fraud, ensure regulatory compliance, and analyze data trends are all top priorities for FIs today. Active Archive simplifies these tasks by consolidating data and making it accessible online."

About PCBB

Walnut Creek, CA-based PCBB was created with the sole purpose of helping community-based financial institutions become stronger.
