LONDON, ON, CANADA, April 27, 2018 /EINPresswire.com/ -- [Zomaron](#) Inc., one of the country's fastest growing fintech

firms, has been recognized on 2018's list of [Best Workplaces in Canada](#). Zomaron has ranked #44 nationally for Best Workplaces with Fewer than 100 Employees.

Tarique Al-Ansari, CEO of Zomaron, credits the honour to his employees' contributions, "The culture at Zomaron is the result of grassroots initiatives by our staff. They have really driven the company's social engagement, internally and externally, which has established a true kinship throughout the organization."

With a staff complement of over 75 full-time employees, Al-Ansari believes Zomaron's continued growth will be the result of further employee investment. "Our company has a strong customer focus with a philosophy that if we invest in our employees we are able to retain the best talent, and in return provide the best quality products and service to our customers," says Al-Ansari. "With weekly catered lunches, employer paid benefits, flexible working arrangements, and our new state-of-the-art facility, we are always looking for new ways to show our appreciation for everything the team does."

In 2017, Zomaron was also recognized by PROFIT as one of Canada's Fastest Growing Companies for the second consecutive year, and was also featured in the Mayor of London's annual State of the City address earlier this year.

Zomaron is 1 of 5 London companies to make the list. Along with HRDownloads and Voices.com in their category of Best Workplaces with Fewer than 100 Employees, other London companies recognized include 3M Canada and JMP Engineering Inc.

The full list of Best Place to Work winners will be published as a Special National Report in The Globe and Mail in late April 2018.
