PUNE, MAHARASHTRA, INDIA, April 30, 2018 /EINPresswire.com/ -- Automotive Glass Market

Summary

The growth of automotive industry leads to the increased demand for automotive glass market. Rising production and sales of vehicles are likely to result in increased usage of the automotive glass. Factors such as the growing demand for luxury and value added features such as

electronically switch abled smart glasses and other are some of the factors driving the automotive glass market. Additionally, benefits such as thermal comfort and noise reduction offered by these will enhance automotive glass market. Moreover, the rising need for weight reduction in cars, is expected to fuel the demand for ultra-thin & tough windshield glasses for sophisticated vehicle models.

Whereas, high cost associated with manufacturers, and lack of awareness about usability & benefits, hamper the growth of the market significantly.

The market is expected to reach market size of 28,135.7 million by the end of forecast period with CAGR 7.73% between 2017 and 2023.
