The market for space and military manufacturing is concentrated with a few large players dominating the market. Major players in the market are Lockheed Martin, Boeing, BAE Systems, Raytheon Company and others.

Guided Missile and Space Vehicle accounted for the largest share of the market for space and military transportation in 2017 at REDACTED. The highest growth is also projected to come from Guided Missile and Space Vehicle which is forecasted to grow at a CAGR of REDACTED. Major factors included economic growth, technological advancements and high demand for military and aerospace equipment from countries and companies.

Western Europe is the largest market for space and military transportation, accounting for 30.7% of the global market. It was followed by Asia Pacific, and North America. Going forward, Western Europe is expected to witness the fastest growth in the space and military transportation manufacturing market, estimated to grow at a CAGR of REDACTED, followed by Asia Pacific, which is expected to grow at a CAGR of REDACTED.

United States is the largest market in terms of value and in the space and military transportation manufacturing market. China and Germany are forecasted to have the fastest growth, growing at a CAGR of REDACTED and REDACTED, respectively.

The market is challenged by restraints such as decline in stringent regulations, high investment costs and space debris.

## Report Scope:

This research report categorizes the space and military transportation market by type. Product type include guided missile and space vehicle, and military armored vehicle manufacturing.

## Report Includes:

- 98 data tables
- An overview of the global market for space and military transportation manufacturing
- Analyses of global market trends, with data from 2016 and 2017, and projections of compound annual growth rates (CAGRs) through 2022
- Market breakdown by segment, region and country
- Identification of segments with high growth potential and their future applications
- Explanation of major drivers and regional dynamics of the market and current trends within the industry
- Detailed profiles of major vendors in the market, including Lockheed Martin, General Dynamics, Northrop Grumman, BAE Systems and RaytheonBAE SYSTEMS

BOEING

GENERAL DYNAMICS

LOCKHEED MARTIN

NORTHROP GRUMMAN

RAYTHEON COMPANY

## Table of Content: Key Points

Chapter 1 Introduction

Analyst's Credentials

Chapter 2 Summary and Highlights

Chapter 3 Space and Military Transportation Manufacturing Market Characteristics

Chapter 4 Space and Military Transportation Manufacturing Market Size and Growth

Historic Market Growth

Drivers of the Market

Restraints on the Market

Forecast Market Growth

Drivers of the Market

Restraints on the Market

Chapter 5 Space and Military Transportation Manufacturing Market Trends and Strategies
