PACS software market insights to 2022 Projects the market to Grow at a Healthy CAGR, know about the Growth Factors

Key players profiled: Carestream Health, iCRco, Dicom Systems, eRAD, Konica Minolta, Medicor Imaging, RamSoft, Radsource, Esaote, Siemens Healthcare, Telemis.

PUNE, INDIA, May 5, 2018 /EINPresswire.com/ -- The global market for photo archiving and communication systems (PACS) and radiological information systems (RIS) has increased at a significant rate over the past few years, enabling appropriate data management in healthcare facilities. With the growing demand for digitization in the healthcare industry, the market will continue to grow in the next few years.

Based on product type, the global PACS and RIS markets witnessed the emergence of PACS as a major segment of sales in 2017. Maintain its dominance in the PACS forecast period with the widespread use of PACS and the constantly increasing demand for the cardiology and orthopedic sector. Of the various types of PACS products available on the global market, the segment of oncology PACS is expected to be the largest growth segment in the forecast period of the report. The growing prevalence of various cancers is expected to be a major driver of the growing demand for oncology PACS.

This report studies the global PACS Software market, analyzes and researches the PACS Software development status and forecast in United States, EU, Japan, China, India and Southeast Asia. This report focuses on the top players in global market, like: Carestream Health, iCRco, Dicom Systems, eRAD, Konica Minolta, Medicor Imaging, RamSoft, Radsource, Esaote, Siemens Healthcare, Telemis, Trice Imaging and VIDISTAR.
