Approximately one-third of auto accidents occur due to speeding. In fact, auto accidents are occurring more frequently as time passes and that is largely due in part to an increase in speeding.”

Marc Weinberg, Attorney

Jeff Schaffer was recently able to help someone obtain a settlement for an auto accident injury. The client was a driver of a motor vehicle that was struck by another driver who was speeding through an intersection. That driver disregarded a red traffic light, which led to the accident. The client suffered cervical herniations as well as myofascial pain and dysfunction to her jaw.

According to the Insurance Institute for Highway Safety (IIHS), approximately one-third of auto accidents occur due to negligent speeding. In fact, auto accidents are occurring more frequently simply because more people are speeding on the road. Jeff Schaffer from Saffren & Weinberg is no stranger to this situation.

After suffering her injury, the client reached out to Saffren & Weinberg to receive help with her case. Attorney Jeff Schaffer was more than happy to file a lawsuit to help get the injured client the justice that she deserved. The case was resolved prior to trial and she was granted an award of \$1,400,000.
