

SPHERE Technology Solutions Signs Top 50 Law Firm, Continuing Expansion into Multinational Legal Industry

Global firm taps SPHERE's data governance services to address GDPR alongside the security and compliance needs of its FinServ clients

JERSEY CITY, NJ, UNITED STATES, May 11, 2018 /EINPresswire.com/ -- SPHERE Technology Solutions, a global, woman-owned cybersecurity business focused on improving security and enhancing compliance, signs a top 50 multinational law firm to its client roster, continuing SPHERE's business expansion into GDPR data governance for Top 100 law firms.

The Top 50 global law firm tapped SPHERE's extensive cybersecurity expertise in the financial space to proactively adopt a holistic data governance program that meets and exceeds the compliance needs of its financial clients, including the data security component of GDPR. The global firm leverages SPHERE's flagship products, SPHEREengine and SPHEREboard to power an analytics-driven governance strategy geared toward the financial firms it serves. SPHERE's multiphase approach will provide the needed file share assessment, planning, and remediation services. The contract deepens SPHERE's continued partnership in the legal community to parallel its seasoned expertise in the financial services space.

“

We're implementing our analytics powered approach to provide the much needed visibility of risk and remediation needs for law firms, as they better service their financial clients.”

Rita Gurevich, SPHERE President and Founder

“This is a meaningful stepping stone for our ongoing growth in the multinational legal space,” says SPHERE President and Founder, Rita Gurevich. “We're excited to implement our analytics powered approach to provide the much needed visibility of risk and remediation needs as law firms work to better service their financial clients, alongside their unique compliance needs.”

Global firm taps SPHERE's data governance services to address GDPR alongside the security and compliance needs of its FinServ clients

SPHERE will deliver its specialized expertise to develop strategies and processes for reporting of risk, data access management, implementing an effective target operating model, and automation to global law firm environments, supporting compliance, mitigating risk, and ensuring security best

practices are followed. SPHEREngine and SPHEREboard will power the firm's risk assessment and remediation in addition to ongoing data governance requirements post remediation.
