*NO SURVEILLANCE! Identity fraud expert David Howe continues to expose criminal cover-up and theft while compiling a mountain of indisputable evidence for trial*

In fact, I'd like Congress to set my place at the table and let me know when is a good time to return to the Hill”

IN THE COUNTY COURT OF THE  
TWENTIETH JUDICIAL CIRCUIT IN AND  
FOR LEE COUNTY, FLORIDA

CASE NO. 2018-SC-001768

**CODE COVER-UP: Enterprise Holdings' National Car Rental counsel says evidence is GONE!**

However, listen to the audio and hear 'we're looking at the footage...'

"This is truly a remarkable and shocking development," declared David Howe, National Car Rental victim and America's child identity guardian. "I call it 'CODE COVER-UP', 'CODE CONCEAL', and a 'FIVE ALARM FRAUD'. Because that's exactly what this is and everyone can now judge for themselves.

"Frankly, I want to know WHERE IN THE HELL IS THE 'FOOTAGE!' I want to know WHAT IN THE HELL DID YOU DO WITH IT!," Howe demanded. "I want to know precisely and now, HOW IN THE HELL CAN IT NOT BE IN THE CARE, CUSTODY, OR CONTROL OF NATIONAL CAR RENTAL!

"Yes, just imagine for a moment," continued Howe. "That a company would initially implicate a renter without a trace of evidence of liability -- without a shred of proof. And when the renter demanded evidence from the organization -- that they claimed to have viewed during an audio message demanding \$502.80 -- the organization would assert that they've lost the evidence. That they no longer have the evidence. That they discarded the evidence. What an outrage!

"And keep in mind, the company implicated and legitimized the entire fraud based on 'wear and tear'," Howe emphasized. "The company intentionally ignored their own highly touted 'damage protocol' ( read the touted policy here: <http://www.winknews.com/2016/02/29/sanibel-couple-charged-for-under-car-damages-to-rental/> ).

"And, MOST SHOCKING OF ALL AND EXACTLY AS INITIALLY SUSPECTED BY VICTIM DAVID HOWE, to substantiate a legitimate damage claim against the renter -- the company damaged its own vehicle and now firm Rissman, Barrett, Hurt, Donahue, McLain & Mangan, P.A., counsel for Tortfeasor Enterprise Holdings', has proved the findings by filing an 8-page document with the Lee Clerk revealing the SUBSEQUENT damage!

"YES, THE TORTFEASOR'S OWN COUNSEL -- UNDER COMMAND FROM PLAINTIFF'S SUBPOENA DUCES TECUM -- HAS DRAMATICALLY AND IRREFUTABLY IMPLICATED ENTERPRISE HOLDINGS' NATIONAL CAR RENTAL FOR THE FRAUD AND CIVIL THEFT EXACTED AT THE SOUTHWEST FLORIDA FORT MYERS INTERNATIONAL AIRPORT ON THE 29TH DAY OF OCTOBER 2016."

"And exactly as instantly suspected at the crime scene, during the predatory event, and precisely the reason the seasoned fraud investigator snapped the one single photo that -- as intended in the most dramatic fashion possible -- protected victim-Howe. Yes, in the absence of that single photo, the victim -- like virtually all other prey to the car rental 'ding and dent' scam would have simply had no choice but to line Enterprise coffers with the ill-gotten and stolen payment!

David E Howe, SubscriberWise founder and FICO global GOAT

"Indeed, it's beyond outrageous and it better get the attention of Congress," proclaimed Howe. "In fact, I'd like Congress to please set my place at the table and let me know when is a good time for America's child guardian to return to the Hill. Of course, I'm flexible. And I'm definitely willing because so many other victims are counting on change so desperately needed:  
<https://www.businesswire.com/news/home/20180506005041/en/National-Car-Rental-Victim-Plans-Turn-Table> .

"To be more specific about the outrage, including the now obvious COVER-UP, I immediately contacted the company -- within days of the initial fraud attempt. I told them that I was coming to see the booth surveillance, after I made a few phone calls demanding it. A manager in Miami said it is kept for about 30 days. I heard the same from a manager in Fort Myers. And according to the official Lee Port Authority Police investigation, they too made several calls to the Miami agency. Although no one should be surprised to learn, the calls from the police investigator were not returned either. The police never saw the surveillance either.

"In light of this incredible admission from Tortfeasor, including additional evidence obtained from the subpoena and filed with the Lee Clerk of the Court, I intend to issue one or more additional subpoenas. Among other things, I want to know exactly what the protocols and policies are regarding maintaining digital and other evidence, particularly when the company is aware of a criminal and/or civil investigation.

"Of course since the organization ignores the 'damage' policy so brazenly and so intentionally, would it matter to know anyway," quipped Howe angrily.

"For the record, I also intend to file a motion to the court asking the court to respectfully dismiss the current dollar amount of \$5000.00 which can be sought for the civil theft," concluded Howe. "Specifically, I will respectfully request the court to allow the Plaintiff to proceed under the unique Florida 'Civil Theft Statue', Fla. Stat. 772.11. The Statue allows a Claimant to recover 'threefold' the actual damages if the case is proved to a higher civil standard. From my informal accounting, I'm guessing the Tortfeasor will be looking at a 7-figure settlement."

About SubscriberWise and National Child Identity Guardian for Babies for Girls and for Boys

David Howe is among the world's most productive and engaged identity fraud experts of the 21st century. Over the past two decades, Howe has directly confronted more child identity thieves than any single individual in human history. His expertise on the subject of identity theft has been shared with virtually all levels of state and federal law enforcement agencies. In 2014, Howe provided training and information concerning identity fraud to IBM's RedCell Counter Fraud and Financial Crimes Intelligence team.

Howe is also the highest achieving FICO scoring consumer in worldwide banking and financial history. Howe intends to demystify consumer credit and credit scores for individuals everywhere by sharing his story and experiences. Credit and credit scores impact many areas of one's financial life. Excellent credit offers rewards and opportunities; adverse credit limits choices and costs real money.

Hearing the facts about credit scores from the only citizen of the world - living or deceased - known to have achieved simultaneous perfect FICO 850 scores across every national repository and simultaneous perfect Vantage scores at Equifax, Experian, and TransUnion - as well as having obtained rankings in the 100th percentile across virtually every scoring model on the market – is intended to empower and encourage consumers who may be struggling with their credit and eager to get back on their feet.

Pursuing perfect credit is hardly the point and it shouldn't become an obsession; rather it is the fact that it's possible. It requires patience and extremely careful financial maneuvers over a very long period. And because no person can control life events, set-backs are inevitable. David Howe proves it's attainable despite his own challenges and life events during his near half-century existence on planet earth. Howe has literally invested decades with countless hours and thousands of dollars pursuing and mastering personal credit and FICO scores in particular. The effort has paid off and has not gone unnoticed.

David Howe coined the term "community-made millionaire" (while dismissing any notion of "self-made") and uses this to describe himself and his corporate and financial successes. It may be perceived by some as arrogant, but its purpose is to motivate anyone who is reaching for their goal(s)...whatever those goal(s) may be. Howe makes it a point to admonish any person who would sell another short for pursuing their personal goals and ambitions.

"My clothes may be funny, but they're making me the money!" - Liberace

Howe was and is unsuccessful at sports and athletics; he lamented his lack of physical prowess as a boy. But thanks to his family, his friends, his co-workers, his education, his continued interest in learning, culture, and travel - as well as an uncle and scholar of American jurisprudence - who mentored and motivated him constantly...Howe reached several of his personal goals.

But the bar is set high and there will always be an agenda and an ambition for David E. Howe.

Howe's passion with credit and risk management can be found everywhere in the industry today.

Today SubscriberWise touches a U.S. consumer every minute of every hour of every day. In 2014, SubscriberWise was named winner in the CableFAX Tech Awards in the category of commercial software, among an incredibly competitive environment that was open to every MSO and tech vendor in North America.

Despite being a dedicated and hard worker, Howe is a vagabond and minimalist who prefers to travel from city to city - on a whim - and at his sole discretion; rarely an agenda and often no place in particular. Howe is most contented with a simple existence, an eye on health and wellness, friends and family, warm and sunny climates, and - most especially - a morning coffee and an afternoon imbibe of red wine.

Howe holds an Associate and Bachelor of Arts degree from the College of Arts and Sciences at Kent State University with an academic focus in human behavior at the macro level, political science, and public administration. He is a member of Pi Gamma Mu, the country's oldest and preeminent honor society in the social sciences and Alpha Kappa Delta, the international sociology honor society. Howe was among the first professionals in the nation to obtain the FICO Professional Certification. Howe was interviewed on the subject of perfect credit by BankRate.com and The Motley Fool and is the first and only citizen of the world to describe the details of perfect FICO and Vantage scores to U.S. reporters.

Professor Howe produced and published a number of videos on the subject of perfect credit including: FICO 850 Credit Report Facts and FICO Scores: The Facts (<https://www.youtube.com/watch?v=4sny-172p9Q> ).

If David E. Howe can do it, then you can do it!
