

LUNA, THE CASTLE EVENT MAY 27TH, 2018

The spark of a good match ignites human inspiration and innovation.

Join us for a four day experiment in self-organization, collaboration & emergent creation.

NEW YORK, NY, USA, May 14, 2018 /EINPresswire.com/ -- NEW YORK, NY--- The spark of a good match ignites human inspiration and innovation.

At Luna, we're exploring new ways to catalyze those connections: join us for a four day experiment in self-organization, collaboration, and emergent creation in the French countryside, just outside of Paris.

From May 27th through May 31st, we're bringing together innovators, investors, artists, and researchers in a setting designed to inspire and provoke imagination of what is and what could be. We've taken note from Summit, Burning Man, and TED to instantiate this temporary renaissance.

“Equal parts challenge and celebration – this is very much who we are as a team and a prototype of the community we're building. We're excited to testbed this data-driven approach to connectivity ”
– CEO [Andre Ornish](https://www.meetluna.com), <https://www.meetluna.com>

This is a radical, participatory event. There are no spectators here.
