## Expansion

Once Gabriel returned from America, he started to invest the company in other commercial branches.

While still maintaining the basis of what made his father successful, Btsh expanded the business.

It was through real estate construction that Btsh was able to start helping his country.

In the early 1990's, Btsh landed his first project, The Mall Los Pueblo. Since the mall first opened, it has become the most popular mall in Panama.

Afterward, within the span of twenty years, Btsh built over twenty-four apartment buildings. with luxuries that come at a fair price, these buildings are built extremely well.

The buildings that Btsh creates are built with families in mind. The uniqueness and affordability of these apartments allow tenants to live in a safe and comfortable environment.

## Job Creation

In addition to helping raise the bar on architectural integrity throughout Panama, Btesh has also created over 10,000 jobs in ten years.

The reason for this is that Btesh's projects are creating something out of nothing. Btech employs people to build his projects.

Then, there are new places for businesses to prosper. Once businesses prosper, those entrepreneurs hire other people.

This keeps the economy and the available workload moving in a positive direction.

## The Construction of Opportunity

The people who are affected by Btesh's business aren't just people looking for a job or a place to live.

Considering that Btesh has also built 5-Star hotels and country clubs for the area, his projects are always bringing in revenue.

However, these projects are also bringing in entertainment.

"Building the family business," Btesh said, "is also a chance to look towards the progress of Panama."

In summation, Gabriel Btesh has taken a family business and country to new heights. He has expanded into multiple successful avenues and used that success to bring hope and prosperity to his country.
