[CryptoPortfolioBuilders.com](http://CryptoPortfolioBuilders.com) a proud member of the CT Global Media (CTG) Family of Financial Web Properties opened its doors last week and began accepting members for the very first time. The goal of [CPB](http://CPB) is to de-mystify the challenging world of Cryptocurrencies. From where to start, how to buy, to the exchanges and tools that have been awarded the CPB Seal of Trust.

"Along with the knowledge you need", the Founders are quoted as saying, "We also bring to the table our bumps, scrapes, and mistakes. These badges of honor were earned not from a textbook or video, but from the real world, live market trading and investing".

As part of the services offered on their website, access to the "CPB Members Only Crypto Portfolio" tops the list. Members are able to follow along and see current holdings of the Official Crypto Portfolio and are made aware of any Cryptocurrency additions, removals, or changes to the Portfolio, as it happens.

“

We have elected to put our money and faith in a mathematical framework that is free of politics and human error. ”

*Tyler Winklevoss,  
Entrepreneur*

Members are able to shadow every investment made by the company and build a duplicate portfolio for themselves. It appears, however, the greatest thrust is into the field of education. Teaching those new to the world of Cryptocurrencies, not only how it works, but understanding each and every investment from both a technical and

fundamental standpoint.

## CPB Membership Benefits

As a CPB Member, the Crypto Portfolio is an open book. You'll see what they've bought when they bought it, and the results to date. [Crypto Portfolio Builders](#) use both Bitcoin and Ethereum as benchmarks much like stock analysts use the S&P 500. For Cryptocurrencies, BTC and ETH are considered by many to be leading indicators of the Crypto markets overall health and direction. ETH, of course, operates on its own Blockchain and is home to all ERC-20 tokens.

CPB arrives at their decisions by studying the cryptocurrency market's technicals, fundamentals, and historical cycles.

This information tells them when and by how much they build the portfolio and when they step back, waiting for better prices and/or a shift in crypto-market sentiment.

Many say the markets are ruled by Fear and Greed. Crypto Portfolio Builders claims to use a third alternative method, they simply call The Strategy. A strategy they share with and teach every CPB Member.
