

# Arkansas Whistleblower Center Now Appeals to a Physical Therapist in Arkansas to Call About Rewards If They Can Prove Their Employer Is Overbilling Medicare for Unauthorized or Unsupervised Physical Therapy Sessions

WASHINGTON, DC, USA, June 7, 2018 /EINPresswire.com/ -- The Arkansas Corporate Whistleblower Center is urging a physical therapist, a healthcare manager or medical doctor anywhere in Arkansas or nationwide to call them anytime at 866-714-6466 if they have proof a healthcare company is involved in a scheme to gouge Medicare, Medicaid or TRICARE with unauthorized high volume physical therapy and or the therapy that was not being supervised by a physician.

According to the group, "We believe one of the easiest ways to rip off Medicare or Medicaid is with unsupervised or unauthorized physical therapy on the part of a nursing home, skilled nursing facility or a rehab center and we are confident there are bad actors in every state involved in high volume over billing of Medicare using PT as the excuse. Recently a whistleblower received \$225,000 for this exact type of information." <http://Arkansas.CorporateWhistleblower.Com>

In January 2018 the Department of Justice announced a health care system based in Southern California agreed to pay \$1.5 million to resolve allegations that it violated the False Claims Act by charging federal health care programs for physical therapy services that were rendered by therapists who did not have billing privileges for these programs and were not supervised by an authorized provider. The Whistleblower reward-\$225,000.

Aside from therapists or physicians with proof a healthcare company is gouging Medicare with

unsupervised or unauthorized physical therapy the Arkansas Corporate Whistleblower Center would like to hear from the following types of people:

- \* A nursing home manager, RN or CNA who can prove their employer is billing Medicare as if the facility is fully staffed when the opposite is true—the facility is constantly short staffed and patients are at risk.

- \* An employee at a rehab center, a skilled nursing facility, a dialysis center, a company providing hospice services, an imaging center, a blood testing company, or a hospital ER physician who can prove their Arkansas based employer is billing Medicare/Medicaid for services never rendered or for unnecessary medical procedures.

The Arkansas Corporate Whistleblower Center says, “If you are a Medical Doctor or any type of healthcare worker in Arkansas and you have significant proof a healthcare provider is gouging Medicare or Medicaid with bills for services that never happened or for medical services that should have never taken place please call us anytime at 866-714-6466 so we can discuss the value of the potential whistleblower reward. Why sit on what could be a winning lotto ticket without ever knowing what it might have been worth?”

Simple rules for a whistleblower from the Arkansas Corporate Whistleblower Center: Do not go to the government first if you are a potential whistleblower with substantial proof of wrongdoing. The Arkansas Corporate Whistleblower Center says, “Major whistleblowers frequently go to the government thinking they will help. It’s a huge mistake. Do not go to the news media with your whistleblower information. Public revelation of a whistleblower’s information could destroy any prospect for a reward. Do not try to force a company/employer or individual to come clean about significant Medicare fraud, overbilling the federal government for services never rendered, multi-million-dollar state or federal tax evasion, or an Arkansas based company falsely claiming to be a minority owned business to get preferential treatment on federal or state projects. Come to us first, tell us what type of information you have, and if we think it’s sufficient, we will help you with a focus on you getting rewarded.

We believe one of the easiest ways to rip off Medicare or Medicaid is with unsupervised or unauthorized physical therapy”
