

# GoodFirms Survey - A Massive Research of Mobile App Development Cost and Time

*GoodFirms conducted a survey to determine the cost and time of mobile app development*

WASHINGTON DC, WASHINGTON, UNITED STATES, May 21, 2018 /EINPresswire.com/ -- Today's consumers are spending over 85% of their time on their Smartphone's using applications. Watching this percentage, it is said that the mobile app industry is expected to reach heights of over \$100 billion in the next few years.

As more and more businesses are getting added in this technology and entrepreneurs are becoming more inclined to turn their ideas into apps.

But, here each of them has one question that is being asked - How much does it cost to develop an app? Keeping this thing in mind, GoodFirms performed surveys across the app landscape.

Here, GoodFirms brings to light the [App Development Cost](#) and time based on the comprehensive research to build apps that have analogous functionalities to world's most popular mobile applications like Tinder, Periscope, Whatsapp, Quiz up, Instagram and Uber.

association for their project needs.

Moreover, GoodFirms also asked [Indian App Developers](#) and mobile app development companies globally to share the app development cost and time to investigate how much an app might cost and take time to develop the similar popular mobile apps like Tinder, Periscope, Whatsapp, Quiz up, Instagram and Uber.

GoodFirms was successful in covering and to bring out the cost breakdown for app development with the help of this survey. These details would be great rally round to entrepreneurs to get a rough thought about the pricing and time frame of creating an app before hiring top [Android App Development Company](#) or iPhone app development company from worldwide.

Remember, there are some other common features that increase technical complexities and drive up the cost of your app include: such as payment systems, web portals, and integration
