

TraceGains Celebrates 10th Anniversary

TraceGains celebrates 10 years of success and evolution within the food and beverage supply chain.

WESTMINSTER, CO, UNITED STATES, May 22, 2018 /EINPresswire.com/ -- TraceGains, the leading compliance software solution, revolutionizing information exchange across the supply chain for Food, Beverage, CPG, Retail, Restaurants, Broker-Distributors, and Dietary Supplement companies, is celebrating 10 years of success and evolution within the food and beverage supply chain.

Founded in 2008, TraceGains entered the food and beverage industry on a mission to improve efficiencies and data quality across the supply chain. Beginning with its flagship products, Supplier Compliance and Supplier Management, TraceGains quickly addressed key areas of concern among industry leaders – plenty of data flowing, but a poor system to manage all of it and ensure proper compliance and visibility into every corner of their business.

“

The next 10 years will be just as exciting, if not more so, as we continue to evolve and produce solutions that meet the needs of the ever-changing landscape that we serve. This is just the beginning.”

*Gary Nowacki, TraceGains
CEO*

“Our method of obtaining documents was very sporadic and unorganized prior to TraceGains and a lot of people were relied on to request documentation. TraceGains software has streamlined this process immensely and it is VERY user-friendly,” shared Jamie Krystofiak, Quality Assurance Manager, Mullins Food Products.

Now serving hundreds of food and beverage companies, including 26 of the top 100, and every size in between, as well as thousands of suppliers connected within TraceGains Network, TraceGains has quickly established itself as the

market leader. With a comprehensive product suite that touches every corner of the supply chain, TraceGains' customers benefit from a one-stop shop for their supply chain management needs.

“I explained to the auditor that we use TraceGains for our regulatory documents and CoAs. The auditor said he was very familiar with TraceGains and that he didn't need to question any further,” commented Carolyn Kuntz, Purchasing Agent, KanPak, LLC.

Gary Nowacki, TraceGains CEO, commented on this important milestone by sharing, “This has been an exciting 10 years for TraceGains. Not only have we developed exciting new products that truly make a difference for our customers, but we have also created a premier Network for the industry,

connecting every inch of the supply chain and setting the bar for optimal business practices and collaboration.”

“The next 10 years will be just as exciting, if not more so, as we continue to evolve and produce solutions that meet the needs of the ever-changing landscape that we serve. This is just the beginning,” added Nowacki.

About TraceGains

TraceGains is a rapidly growing software company, delivering a sophisticated suite of products for food, beverage, CPG, retail, restaurants, broker-distributors, and dietary supplements companies. TraceGains solutions empower its customers to satisfy compliance with regulations and industry standards such as FSMA, GFSI, and HACCP/HARPC, without the need for additional staff.

At the heart of TraceGains is a robust platform that enables companies to automate and optimize their processes through instant information sharing and collaboration between supply chain partners, which saves time and improves food safety and quality.

TraceGains is the winner of the 2016 Stratus Award for Cloud Collaboration. The company is also among the Food Logistics Top 100 software and technology providers and was named a Top 20 Information Technology Firm by ColoradoBIZ magazine.
